HIRING FOR A

Senior Software Engineer

HSR Layout, Bangalore

₹ 25 to 60 LPA + Same ESOPs

WHAT YOU'LL WORK ON

- Truiq - World's most evolved real estate valuation and selection engine
- Truva's next gen discovery and online experiential platform
- Backend systems and partner applications that enable end to end operations of 1000 real estate transactions per month
- World's most evolved AI native real estate CRM

WE'RE LOOKING FOR SOMEONE WHO

- 5+ years of software engineering experience in product companies
- Can work directly with product managers, designers, and other business leaders
- Strong AI incorporation to improve personal and team productivity by 10x
- Not looking at any particular tech stack as long as the candidate has worked with any new age technology like nodejs,nextjs, java, python, react, Angularjs

WHAT YOU'LL DO

- Work directly with the CTO and other founders to redefine the online home buying experience. Essentially build a spinny for homes.
- Take architectural decisions, do code reviews, choose tech stack and ship at break neck speeds

Way of working: 5 days a week

Reporting manager: Ankit Gupta (Co-Founder)

Joyful, Honest & Fast Housing
