Ankit Gupta

ex-CTPO Cult.Fit, Google, IIT Delhi

recruitment@truva.com

HIRING FOR A

App Developer

HSR Layout, Bangalore

₹ 25 to 35 LPA + Same ESOPs

WHAT YOU'LL WORK ON

- Truva Native App - An application that helps Truva customers buy and sell real estate. This app will define the worlds best online real estate experience
- AI Sales Assistant App - A native app that listens to all customer visits and acts as a AI Copilot to all our sales and acquisition folks
- TruPartners App - India's only application for real estate agents and developers

WE'RE LOOKING FOR SOMEONE WHO

- 2+ years of experience in mobile app development using React Native within product-driven companies
- Ability to work closely with product managers, designers, and business stakeholders to build intuitive, high-quality mobile applications
- Strong focus on incorporating AI tools and workflows to enhance personal and team productivity by 10x
- Strong grasp of React Native architecture with the ability to debug and resolve issues at the native layer (Android/iOS) when pure JavaScript solutions fall short
- Solid mobile app development fundamentals

WHAT YOU'LL DO

- Work directly with the CTO and other founders to redefine the online home buying experience. Essentially build a spinny for homes.
- Ship at break neck speeds

Way of working: 5 days a week

Reporting manager: Ankit Gupta (Co-Founder)

Joyful, Honest & Fast Housing
