Partner Meraki Labs, Stanford MBA

Ankit Gupta [in]
ex-CTPO Cult.Fit, Google, IIT Delhi

recruitment@truva.com

App Developer

📍 HSR Layout, Bangalore

₹ 25 to 55 LPA + Same ESOPs

WHAT YOU'LL WORK ON

- Truva Native App - An application that helps Truva customers buy and sell real estate. This app will define the worlds best online real estate experience
- AI Sales Assistant App - A native app that listens to all customer visits and acts as a AI Copilot to all our sales and acquisition folks
- TruPartners App - India's only application for real estate agents and developers

WE'RE LOOKING FOR SOMEONE WHO

- 2+ years of experience in mobile app development within product-driven companies
- Ability to work closely with product managers, designers, and business stakeholders to build intuitive, high-quality mobile applications
- Strong focus on incorporating AI tools and workflows to enhance personal and team productivity by 10x
- Tech-agnostic approach with hands-on experience in modern mobile technologies such as Android (Kotlin/Java), iOS (Swift), or cross-platform frameworks like React Native, Flutter, or similar

WHAT YOU'LL DO

- Work directly with the CTO and other founders to redefine the online home buying experience. Essentially build a spinny for homes.
- Ship at break neck speeds

Way of working: 5 days a week

Reporting manager: Ankit Gupta (Co-Founder)

Joyful, Honest & Fast Housing
