Volunteer

Investor/Consultant/Mentor - Multiple Startups

YouPlus Inc., Bangalore — Senior Lead

OCT 2016 - JAN 2020

AI-Driven Market Research Platform

- Designed a corporate program landing page for referrals
- Integrated Paypal/PayTM Payment API integration for online opinion program.
- Designed a program to fetch Google's product taxonomy and store it in the relational table with a parent-child relationship.
- We designed a highly scaled 'Communication System' to send notifications via email, SMS, and push notifications with a single click. The system was built using Play + Akka Framework for concurrency and could serve a million requests simultaneously.
- Implemented a three-way handshake to secure all the APIs using JWT tokens.
- Integrated IBM Bluemix APIs for Speech Recognition.
- Integrated GridFS system using Java and MongoDB for streaming and indexing video opinions.
- Build the Blockchain for the company from scratch to handle transactions and user opinions—Hands-on with PoW and PoS.
- Integrated RecordRTC for accessing Browser's native APIs and channeling the response to the system.
- We designed a Cross-browser, auto-scaleable widget using ReactJS.
- Video crawler to scrape videos from public platforms such as Youtube, Dailymotion, Vimeo, Google Search, Bing, Feeds, etc.
- Build the Ad-Server to serve ads within Video opinions.
- Build Auth Server to handle authentication and authorization for inbound traffic
- Tech Stack: Go, ReactNative, Python, ReactJS, AWS

ConfirmTkt, Bangalore — SDE-II

MARCH 2016 - SEP 2016

Train Inquiry/Booking Platform

- NodeJS API Server | Data Scraper for Mumbai Local Trains, Metros, Monorails | Monitoring Services | Bus Data
- Tech Stack: ASP.NET, KnockoutJS, NodeJS, AWS

DeltaX Inc., Bangalore — Product Engineer

AUG 2014 - MAR 2016

Cross-Channel Advertising Platform

- Integration of new API fields into the social section.
- SQL CLR Integration to support data for multiple dimensions viz Gender, Age, Locations, Interests, etc.
- Bulk Edit of Bids/Targets of multiple ad groups simultaneously.
- Post Worker: Developed Post Worker to process post data from

Facebook for multiple ad types.

- UI revamp: Involved in full restructure of DeltaX UI with the latest technology architecture.
- Full integration of DPA(Dynamic Product Ads) to DeltaX platform with Facebook Inc., California as mentors.
- Feed Worker (Window Service): Implemented Feed Worker to process the product feeds and update the products file to DeltaX Server at the scheduled time.
- Instagram Ads: Support for Instagram ads on the DeltaX platform.
- Cross-sell/Up-Sell for Dynamic Product Ads
- Tech Stack: ASP.NET, KnockoutJS, NodeJS, AWS

LoginRadius, Jaipur — SDE-II
