CAREER OBJECTIVE

Decisive, Strategic, and performance-driven Professional targeting assignments in Azure Data Solutions, where I can utilize my expertise in Data Architecture, ETL Design, Azure Databricks, Data Factory, Synapse Analytics, SQL, and spark with an organization of high repute in IT Industry.

PROFILE SUMMARY

Working Professional having overall 6.9+ years of IT experience in all aspects of developing and implementing end-to-end data solutions on Azure technologies.

Currently I am working as Senior Engineer at 3i Infotech Limited from July 2021 till date.

TECHNICAL SKILL SETS

- ☞ Azure Data Factory, Azure Synapse Analytics, Azure Stream Analytics.
- ☞ Azure Blob Storage and Azure Data Lake, Amazon S3.
- ☞ Azure Managed Instances, Azure Database for MySQL, Azure SQL Database, Azure Cosmos DB.
- ☞ Azure Logic Apps, Azure Key Vaults
- ☞ Azure Devops (CD/CI), Git.
- ☞ Data Bricks, SQL, Python, Pyspark

OCCUPATIONAL CONTOUR

**Since July 2021: 3i Infotech Ltd, Bangalore,
Senior Engineer**

Project 1: BFL[E-commerce]

Roles and responsibilities

- Playing an Azure Senior Engineer lead role in handling the project, working on an Agile (Scrum) Development Team to deliver regular updates to business team and project managers.
- Involved in Business requirements document walk through to understand the functionality and requirements.
- Developing and maintaining end-to-end operations of ETL data pipeline in Azure Data Factory to orchestrate the data into Azure cosmos DB, Azure Managed Instance.
- Worked on existing Azure Data factory pipeline optimizations.
- Enabled monitoring and azure log analytics to alert support team on usage and stats of the daily runs Took proof of concept projects ideas from business, lead, developed and created production pipelines that deliver business value using Azure Data Factory.
- Was responsible was verifying and approving the PR in the Dev branch and merging with main branch.
- Completed POC for the new requirements for Azure synapse Analytics.

Project 2: J&B Medicals

Roles and responsibilities

- Working as a Senior Data Engineer in this project.
- Used Azure Data Factory extensively for ingesting data from disparate source systems to get the data to the Raw Data Lake.
- Once the data is ingested, performed cleansing and Data quality checks.
- We used Autoloader to automate the process of ingesting and loading data into databricks Delta Table.
- Designed and created the Fact and dimension tables in Azure database and published the data using ADF.

May 2019 – June 2021: SDL Technologies India Private Limited, Bangalore IT Service Delivery Analyst

- Working along with business partners, Business Analysts, and product owners to understand requirements and build scalable distributed data solutions using Azure services and Hadoop ecosystem.
- Processed data received from vendors and loaded them into the database. The process was carried out on a weekly basis and reports were delivered on a bi-weekly basis.
- Moving data from on premises DB to Azure SQL DB with the help of ADF.
- Developed logic apps to trigger email notification whenever the pipeline failed using web activity.
- Developed data ingestion pipeline on Azure HDInsight Spark cluster using Azure Data Factory and Spark SQL.
- Self-hosted integration runtime has been created to copy the files from On-premises VM using various activities like metadata, foreach and copy into ADLS GEN2 and Azure Database.
- Created and built lookup activity in ADF to write custom SQL query as per stakeholder request.

Nov 2017 – May 2019: Marlabs Innovations Private Limited Associate Engineer.

- Setting up Azure infrastructure like storage accounts, integration runtime, service principal id, and app registrations to enable scalable and optimized utilization of business user analytical requirements in Azure.
- Implement and manage virtual private networks (VPNs) and ExpressRoute connections for secure connectivity to on-premises networks.
- According to the request and approval whitelisting the IP in azure firewall settings.
- Troubleshoot network connectivity issues and implement solutions to improve network performance.

Nov 2016 – Nov 2017: Inknowtech Pvt Ltd (Mphasis Client), Bangalore Trainee Technical

- Resolving Tickets which include creating and maintaining databases, monitoring Disk Space, database integrity, identifying missing Indexes.
- Good experience in resolving blocking and deadlock Issues by using SQL commands.
- Installation and configuration of MS SQL Servers.
- Backup and restoring the databases from production to test environment.

CERTIFICATION & ACHIEVEMENTS

Microsoft Certified: Azure Solutions Architect Expert (AZ-303/AZ-304)

https://www.credly.com/badges/3f5e2389-1388-4167-ae9b-13baa21975ff/public_url

Microsoft Certified: Azure Data Engineer Associate (DP-203)

https://www.credly.com/badges/55e4b535-da02-4aa1-8847-e61283a33991/public_url

Microsoft Certified: Azure Database Administrator Associate (DP-300)

https://www.credly.com/badges/85083b95-d693-444e-9821-93a1172a50f1/public_url

Microsoft Certified: Azure Data Fundamentals (DP-900)

https://www.credly.com/badges/4d6c3105-7b59-4ae0-ab87-695fa818b149/public_url

Microsoft Certified: Security, Compliance, and Identity Fundamentals (SC-900)
