Summary

Hi! My name is Dhruv Sahu.

I am interested in building Tech Products, Research projects, and Podcasts.

On the Business side :

I've served as a Engineering Lead of a Software Services firm making

Web Applications using Spring Boot, Microservices, Apache Camel, Apache Kafka, etc.

We've served VMware, Chubb (Insurance Products), Dish (Telecom Products BSS/OSS) on the client side.

On Research Side:

1) Working on publishing "Survey Paper in Nanotechnology".

On Social Side:

1) I've hosted a podcast sponsored by rdtech.in to inspire and communicate with young folks in Brain-Computer Interface and AI : <https://youtube.com/playlist?list=PLVeQU1iQe-Xjv0DbolleIpu7CRM-793v1>

2) Cosh Club serves as a mentor network to 10K students worldwide, every year students will get internships in the mentor firms.

Happy to explore opportunities together

Experience

Founder

APIRouter

Aug 2023 - Present (4 months)

API Management Company

Engineering Lead

rdtech.in

Dec 2020 - Present (3 years)

Founder

Cosh Club

Sep 2021 - Feb 2022 (6 months)

Previously (DSA Collections)

Club backed by a 10K NFT collection minted in Ethereum Blockchain with Artists, VCs, and Founders on board.

Failed creating a lot of value.

But learned :

- 1) Creation of community is the most important factor in the virality and sustainability in NFTs and Blockchain Market.
- 2) Need to work on sales side with Fundraising and Marketing.

Software Engineer

rdtech.in

Jun 2017 - Dec 2020 (3 years 7 months)

Education

Indian Institute of Technology, Madras

Bachelor of Science - BS, Data Science and Programming

2020 - 2023

BSc in Data Science and Programming is a Combined degree program for Programming and Data Science Provided by the Indian Institute Of Technology Madras. The Program Consists of deep understanding of Statistics and Computer Science Courses required and in demand for industry Standards.

Fee Waiver : 75% off

Jabalpur Engineering College

Bachelor of Technology - BTech, Industrial and Production Engineering

2019 - 2022

CGPA: 77.4

Industrial and Production Engineering is the Coarse designed for the Engineers Pursuing the Overview of Engineering Systems used while Working in Industries and Control Systems for Controlling the Manufacturing Output.

State Scholarship: Post Metric OBC scholarship

Indian Institute of Technology, Guwahati

SWAYAM-NPTEL, Automation in Manufacturing

Jul 2021 - Oct 2021

The coarse “Automation in Manufacturing” is designed with the primary focus on the design and development of automated systems in manufacturing. Initially, the course introduces various automated systems being used in the manufacturing industry

Indian Institute of Technology, Madras

SWAYAM-NPTEL, Demystifying the Brain

Jul 2021 - Nov 2021

This is the course provided for learning the insights of the human brain and psychology in a Computational way instead of exploring philosophically. The course gives a good overview of the initial steps for getting started in Computational Neuroscience and Brain-Computer Interface. The centre of the course in learning how our brain works actually inspires the learner to replicate those thinking of consciousness in Machines via Neural Networks and Deep Learning.

Skills

Amazon Web Services (AWS) • Jenkins(CI/CD) • Ansible • Git • Docker • Kubernetes • Istio • Java • Embedded Java • Python
