Profile Summary:

Dynamic Java Developer with 5+ years of hands-on experience in enterprise software development. Proficient in Java programming, Spring Framework, and database management. Skilled in leading project lifecycles from inception to delivery, ensuring timely and quality results. Proven track record of collaborating with cross-functional teams to achieve project objectives. Strong problem-solving abilities and a commitment to continuous learning. Seeking challenging opportunities to leverage expertise and drive innovation in Java development

Professional Experience:

Infosys, Pune

Java Developer [Jan 2018 – Feb 2024]

Developed and maintained Java-based enterprise applications for clients across various industries. Collaborated with cross-functional teams to gather requirements, design solutions, and implement features. Utilized Java, Spring Framework, and Hibernate for application development, ensuring scalability and performance. Contributed to the design and optimization of database schemas and SQL queries for efficient data retrieval. Participated in Agile development processes, including sprint planning, daily stand-ups, and retrospective meetings. Mentored junior team members, providing guidance on best practices and coding standards. Actively involved in code reviews to ensure code quality, maintainability, and adherence to project requirements.
