Summary

Backend Tech Lead with 13 years of experience designing and delivering scalable, cloud-native systems using **Node.js, TypeScript, and AWS**. Demonstrated expertise in **serverless architecture, microservices, and API performance optimization**. Known for driving system design decisions, mentoring engineering teams, and collaborating cross-functionally with product and stakeholder groups. Strong leadership in building secure, enterprise-grade platforms, backed by an early foundation in frontend development that adds depth to end-to-end architecture thinking and customer empathy.

Skills

Backend Nodejs | TypeScript | JavaScript | System Architecture | AWS | MicroServices | Kubernetes | Docker | SQL | NO-SQL | MongoDB | Redis | Data Structure | Design Patterns | Solid Principles | DevOps (Terraform) | GithubAction

Certifications AWS Solution Architect (Associate)

Work Experience

Khoros

Lead Technical Consultant

Bangalore, India

Feb 2024 - Present.

Designed and Led a Secure Verification System

- Streamlined customer identity verification in Khoros Care by enabling agents to trigger secure, SSO-based verification flow via iframe and social DMS, reducing manual verification steps and increasing the success rates.
- Helped enterprise brands reduce fraudulent inquiries and handle sensitive customer requests with confidence.
- Reduced agent-side verification efforts by 60%-70 % through automation of SSO-based identity confirmation.

Custom CRM Middleware - a multi-tenant integration for Khoros Care

- Led the design and development of a multi-tenant CRM middleware between Khoros Care and non-standard CRMs like Zendesk, Dynamics 365, etc.
- Designed and implemented a scalable multi-tenant service, enabling rapid onboarding of enterprise clients. Reduce infrastructure overhead and improved development efficiency by 40%.

Tech Stack: NodeJS, React, JS, TypeScript, [express.js](#), AWS Cloud, APIG, Lambda, s3, cloudfront, DynamoDB, Cloudwatch, Kubernetes, Docker, SFTP, GitHub Actions

Kloud9

Technical Lead

Bangalore, India

Mar 2023 - Feb 2024.

Client –Global leader in athletic footwear and sports equipment company

- Enabled self-serve reporting at scale by developing critical services (Submit, Process, Download, Status) with real-time updates and custom user criteria, reducing manual support and improving customer experience.
- Built scalable, event-driven reporting infrastructure using AWS Lambda, API Gateway, DynamoDB, SQS, S3 (pre-signed URLs), and CloudFront; provisioned with Terraform and supported by a dynamic report library to reduce duplication and simplify maintenance.
- Tech Stack:** NodeJS, TypeScript, AWS Cloud, API Gateway, Lambda, DynamoDB, S3, SQS, Cloudfront, Terraform

Client – Prominent provider of Waste and Environmental services

- Modernized the client's legacy Dispatch Management System to support real-time visibility of drivers, tickets and site activity, **resulting in a 65% improvement** in Dispatch Manager productivity.
- Developed a serverless, event-driven data publishing service leveraging **AWS SNS, SQS, Lambda, and Websocket APIs** to broadcast driver and ticket updates in near real-time.
- **Tech Stack**
NodeJS, TypeScript, AWS Cloud, API Gateway, API Gateway Websocket, Lambda, DynamoDB, S3, SNS, Redis, SQS, Cloudwatch.

Client - MyPath2Work – COVID Office Access Platform

- Enabled safe and compliant office reopening across Deloitte locations
- Built a secure, serverless platform for daily health screening and automated Workpass issuance, supporting thousands of employees and guests.
- Implemented real-time rule-based access control using SNS and SQS to instantly revoke passes and trigger alerts upon health status changes.
- **Tech Stack:** Node.js, TypeScript, AWS Lambda, API Gateway, Cognito, PostgreSQL, SNS, SQS

Early Career - Mobile App (iOS and React Native)

Deloitte (2016 - 2020)

Mumbai, India
2010 - 2018

- Mobile iOS Native App **Bed Bath & Beyond**, MyCoBenefits, Peak Health (React Native)

TCS, Sellcraft(TCS), Elan Pvt Ltd, Freelancer (2010-2016), developing native iOS apps and SDKs for enterprise clients such as Cisco, FindmyTap, etc.

Key Highlights:

- Joined Deloitte as an iOS consultant and initiated, led React-Native within Deloitte, setting up the foundation for cross-platform projects.

Certification

AWS Solution Architect Associate

March, 2021

Education

S. P. University

Gujarat, India

Bachelor of Computer Applications (BCA)

2007 - 2010
