Executive Summary

Dynamic iOS and React Native Developer with 5+ years of experience in designing, building, and delivering high-quality applications across diverse domains, including e-commerce, CRM, entertainment, and event booking. Published 10+ applications on the App Store, achieving excellent user ratings and downloads. Proficient in Swift, Objective-C and SwiftUI, with expertise in integrating complex third-party services like Razorpay, PayPal, Firebase, and Google Maps. Committed to optimizing app performance, adhering to SOLID principles, and driving innovative solutions in cross-platform development.

Key Expertise

- **Languages:** Objective-C, Swift, C, React Native
- **Tools:** Xcode, Visual Studio Code
- **Architectures:** MVC, MVVM
- **Frameworks:** Cocoa Touch, Core Data, Core Graphics, Grand Central Dispatch, Alamofire, AVFoundation, CoreML, SwiftUI
- **Libraries/Services:** Firebase, Dynamic Links, Paytm, PayPal, Razorpay, Google Maps, Agora
- **Practices:** SOLID principles, Push Notifications, App Store Publishing, Troubleshooting, Debugging, Performance Optimization, Memory Management, Multicolor modes(Dark and Light)
- **APIs:** RESTful APIs using Alamofire, URLSession, Axios
- **Version Control:** Git
- **Platforms:** macOS, Windows
- **Web Technology:** HTML
- **Database:** SQLite

Experience

- **Senior Engineer (iOS Developer)** Oct 2023 – July 2025
Present Meritto (Formerly NoPaperForms) Private Limited, Gurugram, Haryana
- **IOS Developer** Jan 2022 – Oct 2023
ARK Infosolutions Private Limited, Noida, Uttar Pradesh
- **IOS & React Native Developer** Jun 2021 – Jan 2022
Bizhawkz IT Solutions Private Limited, Faridabad, Haryana
- **IOS Developer** Jan 2020 – May 2021
Webnmobapps Solutions Private Limited, Noida, Uttar Pradesh

Tasks and Responsibility

- Designing and building mobile applications for Apple's iOS platform.
- Maintaining SOLID principle in project.
- Collaborating with the design team to define app features.
- Ensuring quality and performance of the application to specifications.
- Identifying potential problems and resolving application bottlenecks.
- Fixing application bugs before the final release.
- Publishing application on App Store.
- Maintaining the code and atomization of the application.

- Designing and implementing application updates.
- Work with cross-functional teams to elaborate and implement new features
- Troubleshoot code for edge usability, reliability, and edge cases
- Identify and fix bugs; work on app performance
- Use objective-C while developing apps for mobiles and other IOS devices.

Project Handled

- **Meritto (CRM for Student Recruitment)** – Swift, Objective-C – [App Link](#)
End-to-end CRM platform for student recruitment and enrollment. Features include lead management, student tracking, communication modules, and reporting dashboards.
- **ARK DR & SketchUP DR (CRM Apps)** – Swift, Objective-C – [ARK-DR](#), [SketchUP DR](#)
CRM-based mobile solutions for business operations. Implemented modules for client data management, task allocation, notifications, and real-time synchronization with backend systems.
- **IANS (News App)** – Swift – [App Link](#)
A news and media application providing real-time updates, categorized news sections, push notifications, and offline reading support.
- **ETG App (E-Commerce)** – React Native – In Progress
Online shopping app with catalog browsing, wishlists, cart, and payment support.
- **ARK Anniversary (Event App)** – React Native – [iOS](#), [Android](#)
Informative app showcasing ARK's 10th anniversary event.
- **Lippee (Lawyer–Stenographer App)** – Swift, Razorpay, Agora – [App Link](#)
Lawyers can appoint stenographers, manage documents, and connect via in-app calling.
- **ZWC Marketplace (Scrap Trading)** – React Native – In Progress
Marketplace app for recyclers, aggregators, and society generators to trade scrap materials.
- **SFS DailyNeeds (E-Commerce)** – React Native, Razorpay – [iOS](#), [Android](#)
Grocery shopping and delivery app with secure payments.
- **George Driver & User (Taxi/Hotel Booking)** – Swift, PayPal, Google Maps – [Driver](#), [User](#)
Taxi/Hotel booking with live tracking, ride history, and payment features.
- **Superstar Talent Hunt (Short Video App)** – Swift, Paytm – [App Link](#)
Platform for creating and sharing 1-minute short videos with integrated payment features.
- **Housecalls (Doctor–Patient Appointments)** – Objective-C, PayPal, Agora – [App Link](#)
Doctor scheduling, appointment booking, and video consultations.
- **UR Transporter Driver & User (Logistics App)** – Swift, PayPal, Google Maps – [Driver](#), [User](#)
Goods transportation app with vehicle selection, live tracking, and payment integration.

Academic Credentials

- **Bachelor of Technology (B.Tech)**
NGF College of Engineering and Technology, Palwal, Haryana | MDU | 2019 | 70%
- **Polytechnic**
BPRP Masana, Kurukshetra, Haryana | HSBTE | 2014 | 62%
- **X**
Tagore Shiksha Niketan, Palwal, Haryana | HBSE | 2011 | 72%
