

Yogesh Rathod

3yogeshrathod@gmail.com | (+91) 8167547597

EDUCATION

NATIONAL INSTITUTE OF TECHNOLOGY, DURGAPUR

B.TECH IN INFORMATION TECHNOLOGY

May 2020

CGPA: 8.94 / 10

RATNA JUNIOR COLLEGE

May 2015 | Hyderabad, INDIA

TSBIE | percentage: 97.7

JAWAHAR NAVODAYA VIDYALAYA

May 2013 | Yavatmal, INDIA

CBSE | CGPA: 10.0 / 10.0

PRIMARY SKILLS

- C , C++ , Python, Flask, Network
- System Design(HLD)
- Data Structures and Algorithms
- Automation
- Management
- DataBase: MySQL, SQLAlchemy
- Operating systems
- Oops

SECONDARY SKILLS

HTML , CSS

Machine Learning : : Tensorflow, Pandas, SciPy

PLATFORM

Linux

Windows

EXPERIENCE

MIHUP

Mihup is powered by intelligent voice interfaces for any device or application.
3 yrs 7 Months

Machine Learning Engineer

July 2022 - Present

- Designed and Implemented ASR(Automatic Speech Recognition) analysis tool for both Online ASR and Ignite Project, which is automated and saves manual work by 95 percent.
- Developed self correcting mechanism and automated ASR for better results.
- Held complete accountability for ETL processes and functionality, ensuring efficient data extraction, transformation, and loading.
- Enhanced customer experience by creating user-friendly and easily understandable Zoho visualizations.
- Designed and developed a high-level architecture for a server-client application in C++ for real-time audio processing and command-response interaction.
- Engineered a robust communication protocol and integrated advanced audio processing techniques for seamless user interaction.
- Worked on a learnability project utilizing Kafka, Python, and SQLAlchemy to save messages from TML Cloud to a database.
- Designed and implemented efficient data storage and retrieval mechanisms, enhancing data accessibility and learnability.
- Performed Usability Analysis and Competitive Analysis and conducted feature bash for proposed functionality.
- Tech-stack : - Python, C++, Kafka, SQLAlchemy, MySQL, Machine Learning, Zoho

Associate Software Engineer

Nov 2020 - June 2022

- Researched and automated working mechanism for dizrization of audios.
- Developed up server reusability concept to save the server cost for company.
- Helped developing Learnibility usage in Ignite project.
- Tech-stack : - Python, C++

QUALITIES

- Design Patterns: Applied design patterns to real-world problems
- Mentorship: Proven ability to mentor and guide junior team members.
- Excellent problem-solving and analytical skills.
- Possess a "can-do" attitude and a track record of taking on and overcoming challenges.
- Strong communication and collaboration abilities.

ACHIEVEMENTS

- Awarded with Founders Award 2022 at Mihup.
- Shortlisted for Regional Mathematics Olympiad (RMO).
- Represented JNV yavatmal in "National Science Congress Meet 2011" at Pune.
- Nationals in Chess and Handball.
