

Yogi Katba

Software Engineer - Frontend

 yogikatba  yogi-katba  yogikatba16@gmail.com  7383830769

EXPERIENCE (3 YEARS)

NAVI | UI Engineer - I

November, 2022 – Current | Bengaluru, Karnataka
navi.com

- Developed the **Customer engagement dashboard** for running campaigns for Navi which **reduced** the huge cost of using moengage which is approximately **5 Cr/year**
- Migrated “navifinserv.com” website to “navi.com”. This **improved organic traffic** on our website by **30%** and helped us get more conversations.
- Developed **webview** for AMC fund landing page and ran experiments to improve investment conversions.
- Tech Stack: **ReactJS, Redux, NextJS, Tailwind CSS, MUI**

FRONTROW | Software Development Engineer

December, 2021 – October, 2022 | Bengaluru, Karnataka
frontrow.co.in

- **Decreased Dropoff** by 60-70% by integrating truecaller autologin service.
- Aided in developing and later redesigning an **in-house online teaching platform** and built several features to improve freemium to premium conversions and retention, experience and attendance.
- Conceptualized and developed **Instagram-like live reactions** for the in-house teaching platform.
- Spearheaded the development of in-class real-time **Polls and Quiz** features to improve engagement and teacher-student interactions.
- Solved a bunch of problems for the internal team by building **Dashboard** interfaces for in-house users.
- Developed virtual **Guitar chords and melody tool** to enhance learning experience.
- Developed **Introduction and spotlighted performance tools** to improve user-to-user interactions and user delight during premium sessions.
- Tech Stack: **ReactJS, Redux, Tailwind CSS, ExpressJS**

RAX LABS | Software Development Engineer

August 2020 – December 2021 | Gandhinagar, Gujarat
raxter.io

- Development of **Home page** for RAX Labs - raxter.io
- Implemented **Reminder and Snooze** functionality for literatures to remind users about reading and analysing the literature
- Implemented **Sort and Filter** functionalities to make literatures and drafts easily accessible.
- Implemented Bulk favorite/unfavorite and bulk archive/restore functionality
- Implemented **Onboarding Flow** for anonymous(demo) users. Anonymous users can access certain features of the app. Blocked other URL paths and features of the app for the demo users
- Tech Stack: **NuxtJS, VueJS, Vuex, Tailwind CSS, SailsJS**
