PERSONAL DETAILS

- Current Location Chennai
- Date of Birth August 10, 2000
- Gender Male

SKILLS

- Python
- Machine Learning / MLops
- Natural Language Processing
- Google Cloud Engineer
- Spacy
- Flask
- Django
- Rest API Development
- MongoDB
- SQL
- Data Science
- FastAPI

LANGUAGES KNOWN

- English (Both)
- Tamil (Both)

ACHIEVEMENTS

- Project Expo-2018 - Panimalar Institute Of Technology, Project Expo-2018 - Panimalar Institute Of Technology Apr 2018 Won First place in project expo held in B.Tech/B.E.

CERTIFICATIONS

- Google Cloud Certified Associate Cloud Engineer
- Python For Data Science - NPTEL

RESUME SUMMARY

To sustain in the global competitive cutting edge and to the day to day upgrading technology one should have the knowledge of different fields and as well as relating them to manage an organization with the sophisticated tools, with combination of technical, software and as well as managerial skills acquired in my education up to now, I am looking forward to fire up my carrier with an organization in which I can explore myself and can work to my maximum potential.

EDUCATION

Graduation

Course	B.Tech/B.E. (Information Technology)
College	Panimalar Institute of Technology, Chennai
Year of Passing	Aug 2021
Score	8.03/10

Class XII

Board Name	Tamil Nadu
Year of Passing	2017
Percentage	88.8%

Class X

Board Name	Tamil Nadu
Year of Passing	2015
Percentage	86.5%

PROJECTS

Intelligent Extractor using Spacy with BERT, October 2022 - April 2023

- Developed a web application that reduced document processing time by 80 percentage that utilizes FastAPI, Vision API, and spacy with BERT transformer to extract named entities i.e. Person Name, Address, Date, Numerical values etc., from financial documents. The application is designed to provide an efficient and accurate way to extract critical financial data from large volumes of PDF documents

Intelligent Classifier, January 2022 - September 2022

- Created a web application that reduced document processing time by 90 percentage, designed to identify legal pages from financial PDF documents using FastAPI, Vision API, and machine learning (Random Forest classification). The application aims to provide a fast and accurate solution for businesses in the finance and legal industries to identify legal pages within financial documents automatically.

Data Loss Prevention, August 2022 - October 2022

- The primary goal of this project is to redact the sensitive information from financial documents to prevent data breaches and unauthorized access to confidential information. The web application will utilize FastAPI, a high-performance web framework for building APIs quickly, to create a REST API that can interact with other systems.

Intelligent Contract Management System, April 2022 - June 2022

- Developed a web application that saves 50 percent of manual effort to automate the process of identifying and tagging critical content in a contract document. The application used Spacy SpanCat technique to extract critical content and assign relevant tags or labels to it.

WORK EXPERIENCE

Tata Consultancy Services (TCS), October 2021 - Present

- Machine Learning Engineer:Python Full Stack Developer with ML Engineering, GCP, and Spacy for NLP Solutions. Experience in full-stack development, NLP algorithm development, MLops, ML model deployment on GCP, RESTful API development, and database management. Proficient in Python, Django,Flask,FastApi, Spacy, GCP, HTML,CSS,JavaScript, SQL,NoSQL, Docker, Git. Strong problem-solving and collaboration skills. Committed to staying updated with the latest technologies.

AWARDS AND HONOR

- Star Performer of the year 2022-2023 - Tata Consultancy Services Pvt Ltd -Chennai, Siruseri

Grand Finale of Idea Spark 2019-2020 - Indian Institute of Technology, Madras,Jan 2020

Dr.Kalam Young Achiever Award - World Youth Federation,Dec 2019
