SUMMARY

Results-driven professional adept at building and leading end-to-end machine learning (ML) pipelines, while seamlessly bridging the gap between technical and business domains. With a strong focus on cost optimization and a comprehensive understanding of AWS services, I have successfully deployed scalable ML solutions that cater to millions of users, driving business growth while optimizing costs and ensuring seamless integration.

EXPERIENCE

Machine Learning Engineer

Styldod, Inc styldod.com

📅 Oct 2021 – Ongoing 📍 Bengaluru

- Developed and deployed deep learning models for a variety of applications, including natural language processing, and computer vision.
- Managed the entire machine learning lifecycle, from data collection and preparation to model training, evaluation and deployment.
- Worked with a team of engineers to build and maintain a scalable machine learning infrastructure.
- Successfully deployed multiple deep learning models at scale, which are used by millions of users.
- Created reimaginehome.ai
 - Developed and implemented the entire backend architecture and prediction pipeline for reimaginehome.ai, ensuring seamless integration and efficient deployment.
 - Established a modular and scalable system, allowing for easy integration of various components such as middleware, databases, and messaging services.
 - Utilized cloud-based services to automate processes, optimize resource allocation, and enable autoscaling for efficient handling of requests and predictions.
 - System successfully processed 10 million+ images within a month without experiencing any downtime.
 - **Increased inference speed by 2x**, enhancing overall user experience.
 - **Brought inference cost down by 70%**, optimizing resource utilization.

Research Engineer

RAx Labs raxter.io

📅 July 2021 – Oct 2021 📍 Gandhinagar

- Developed and enhanced NLP algorithms to improve sentence ranking, resulting in more efficient research paper comprehension and information extraction.
- Designed and deployed scalable APIs, utilizing containerization for efficient deployment and enhanced accessibility to research assistant features for researchers.
- Led the development of a Twitter bot that generates comprehensive research paper summaries upon providing the bot's Twitter handle and a research paper.

SKILLS

Deep Learning Models: Auto Encoders Transformers

Diffusion Models DALL-E CLIP GLIDE Imagen

DreamBooth ViT Segment Anything

Data Science: Machine Learning Data Visualization

Statistics Probability Linear Algebra

Linux: Python Docker Linux git

AWS: Gateway Lambda SQS Reader AutoScaling

CloudWatch RDS EC2 ECR S3

Frameworks: FastAPI PyTorch Terraform

PROJECTS

QuantML

Making Machine Learning Interactive

www.quantml.org

dev.quantml.org

- Here I explain mathematical concepts behind Machine Learning in simple way, with **python** and **Julia** implementation
- So far I had covered **Linear Algebra** and working on **Statistics** Guide.

Mathematics

Linear Algebra

Statistics

Theory

Implementation

Visualization

Python

Julia

JavaScript

Netlify

StatsViz

[LINK](#)

Visualizing Statistical Concepts

- Here learners can visualize/interact with various statistical concepts in real time, like Law of large numbers, Central Limit theorem, etc

Python

Mathematics

Statistics

Visualization

Real time Interaction

MLViz

[LINK](#)

Visualizing Machine Learning Algorithms

- Here learners can visualize/interact with various Machine Learning Algorithms in real time, like **Linear Regression**, **Logistic Regression**, etc

Python

Visualization

PyTorch Implementation

From Scratch Implementation

Real time Interaction

Fun Projects

[LINK](#)

Here I combine some of my projects that I made out of curiosity. And below I have listed some of them. See all concluded projects [HERE](#).

- **Research Paper Summarizer**

Python

Statistics

Dynamic Programming

- **Linear Transformation (2D/3D)**

Python

Linear Algebra

- **n-color**

Python

K Means Clustering

CERTIFICATES

Statistics and Data Science by [MITx](#)

- **Data Analysis in Social Science-Assessing Your Knowledge**
September 2020 - Present [LINK](#)
- **Machine Learning with Python-From Linear Models to Deep Learning**
June 2020 - Present [LINK](#)
- **Fundamentals of Statistics**
December 2019 - Present [LINK](#)
- **Probability - The Science of Uncertainty and Data**
September 2019 - Present [LINK](#)

Certifications by [Red Hat](#)

- **Red Hat Certified Specialist in OpenShift Administration**
June 2019 - June 2022 [LINK](#)
- **Red Hat Certified Specialist in Ansible Automation**
July 2018 - July 2021 [LINK](#)
- **Red Hat Certified System Administrator (EX200)**
July 2018 - July 2021 [LINK](#)

EDUCATION

Statistics and Data Science

See Record [LINK](#)

June 2019 - Present

[MITx](#)

Deep Learning Specialization by [deeplearning.ai](#)

- **Convolutional Neural Networks**
January 2022 - Present [LINK](#)
- **Structuring Machine Learning Projects**
November 2021 - Present [LINK](#)
- **Improving Deep Neural Networks: Hyperparameter Tuning, Regularization and Optimization**
November 2021 - Present [LINK](#)
- **Neural Networks and Deep Learning**
November 2021 - Present [LINK](#)

Other Certifications

- **Qiskit Challenge**
September 2020 - Present [LINK](#)
- **Algorithms on Strings**
July 2019 - Present [LINK](#)
- **Data Structures**
June 2019 - Present [LINK](#)

Deep Learning Specialization

All certificates are attached above

November 2021 - Present [DeepLearning.AI](#)
