PROFILE SUMMARY

- Enterprise & SMB Account Management:** Experienced Customer Success Manager offering over 5 years of experience in managing accounts across FMCG, Manufacturing, Retail, Media, and Energy sectors.
- Product Adoption & Digital Solutions:** Driving adoption of digital solutions (SFA/DMS, Adobe DME) and enhancing client satisfaction through effective utilization strategies.
- Client Relationship Leadership:** Building trust-driven relationships and acting as a strategic liaison between clients and internal product teams.
- Value Demonstration & Engagement:** Conducting QBRs, workshops, webinars, and training sessions to reinforce business objectives and demonstrate product value.
- Revenue Growth & Portfolio Management:** Delivering consistent ARR optimization through renewals, upsell/cross-sell strategies, and portfolio management.
- Client Feedback & Product Enhancement:** Capturing and analyzing client insights to guide product improvements and feature prioritization.
- Technical Enablement & Integrations:** Leading third-party integrations, REST API implementations, and ensuring seamless onboarding and adoption of enterprise tools.
- Data-Driven Decision Making:** Leveraging Advanced Excel, SQL, Power BI, and Microsoft 365 to generate actionable insights and inform client success initiatives.
- Leadership & Cross-Functional Collaboration:** Mentoring teams, driving operational excellence, collaborating with Sales, Product, and Support, and achieving key customer success metrics.

WORK EXPERIENCE

Customer Success Manager (CSM), Adobe DME
Adobe, Noida, Hybrid Model

Since Sept'24

Key Result Areas:

- Fostering strategic relationships with enterprise clients across Manufacturing, Retail, Advertising, Media, and Energy, acting as their primary Adobe DME point of contact.
- Managing enterprise client interactions proactively to ensure continuous communication, satisfaction, and seamless adoption of Adobe digital solutions.
- Conducting Quarterly Business Reviews (QBRs) to showcase product value, share actionable insights, and reinforce alignment with client objectives.
- Leading onboarding and implementation of Adobe DME solutions, including Admin Console configuration, optimizing workflow and achieving business outcomes.
- Driving product adoption and utilization through demos, webinars, and targeted "Run the Show" sessions highlighting features and best practices.
- Identifying and executing growth opportunities via renewals, cross-sell, and upsell initiatives to expand portfolio ARR and meet revenue targets.
- Collaborating with account managers and sales teams to close new opportunities and capture associated business value across the UK enterprise portfolio.
- Capturing and analyzing client feedback to provide actionable insights, guiding product enhancements and feature prioritization.
- Working closely with cross-functional teams including Sales, Product, and Support to deliver integrated customer experiences and resolve complex issues effectively.

Highlights:

- Monitored & managed a **\$7M ARR portfolio**, ensuring client satisfaction, retention, and strategic revenue **growth across the UK region**.
- Secured an **85% CAST score** across all 8 accounts, ensuring consistent client satisfaction.
- Enhanced **product adoption by 10-15%** across multiple accounts through targeted engagement initiatives.
- Generated an **upsell worth \$50,000** by uncovering and capitalizing on new business opportunities.
- Mitigated risks by **identifying 2 at-risk accounts** and executing a recovery strategy that averted a potential **\$1.2M churn**.

Customer Success Lead
Field Assist, Gurugram

Nov'22-Sept'24

Key Result Areas:

- Coordinated Agile and Sprint-based processes with product teams, deployed a new client feedback system including case studies and testimonials, and rolled out client training programs, resulting in increased satisfaction scores, improved retention rates, and higher product adoption while managing a **portfolio of INR 1.5 Cr.**
- Facilitated full-day workshops, conducted review sessions and technology conclaves with clients, and collaborated across organizational departments to implement and optimize software usage, ensuring clients maximized solution value.
- Supervised a team of three employees, trained five additional team members on processes and best practices, and applied the SKAM model to enhance service delivery and strengthen client retention.
- Utilized tools such as Asana, Advanced Excel & Power BI to streamline reporting, monitor client engagement & derive actionable insights for strategic decision-making.
- Executed third-party integration projects with FMCG ERP software using REST APIs (GET & POST methods), ensuring seamless interoperability thus enhanced client experience.
- Delivered pre-sales demonstrations to prospective clients, showcasing product capabilities, driving adoption, and supporting revenue growth initiatives.

Highlights:

- Directed customer success initiatives, managed 14 enterprise and 17 SMB accounts, and ensured high levels of client satisfaction.
- Successfully on-boarded 10+ accounts on FieldAssist SFA and DMS, ensuring a smooth and efficient adoption process.
