PROFESSIONAL EXPERIENCE

AUTOHYRE Co-Founder

Remote
Jan 2024 – Present

- Bootstrapped and launched a platform for job-seekers and recruitment organizations, achieving **production within 2 months as the sole developer**, with endorsement from the PedalStart community.
- Streamlined and automated outreach program, driving **1,000+ users within 6 months**, with **120+ monthly user growth**, including paid users, organically and with **0 net-marketing spend**.
- Executed product development, deployed RESTful backend API, ReactJS frontend, distributed scheduler, WebRTC and real-time video processing, **LLM routing using LangChain** and **self-hosted WhisperX inference server for 300% more accurate transcription**. Implemented consolidated dashboard for KPIs, admin tasks and marketing.

EDER LABS (ACCEL PORTFOLIO) Senior Product Engineer

Remote
Aug 2020 – Dec 2023

- Spearheaded **agile framework**, conducted code reviews, wrote core libraries, R&D, and aligned engineering with product vision; **contributed over 70% of the codebase**, achieving **two appraisals in a single cycle**.
- Built APIs, webapps, ML server & data pipelines with FastAPI, VueJS, HF, PyTorch & Kafka, resulting in **25% increase in data throughput**, **40% reduction in processing latency** and **cutting page load times by 50%**. Pioneered federated learning as a service and differential privacy for **GDPR/CCPA compliant secure data transfer**.
- Developed advanced **graph-based recommender systems** using Neo4J and **trained LLMs with knowledge distillation** for up to **30% improvement in AUC score**, self-deploying for **80% cost savings in model inference**.

ONE GRADE BUILDERS Co-Founder

Jaipur, IN
Aug 2019 – July 2020

- Established a platform for remote construction management, **onboarding over 1,000 contractors and 100+ material service providers** via a mobile-friendly bidding system for clients and contractors.
- **Led a team of 3 interns to develop the MVP**, managed operations, and cultivated client-contractor relationships, secured over **1 crore in sales**.

EPISOURCE (ACQUIRED BY OPTUM) Data Science Intern

Mumbai, IN
Jan 2019 – Aug 2019

- Conducted exploratory data analysis, reference model building, and feature engineering to **create ML models for clinical suspecting, achieving up to 96% accuracy** and later deployed as a full-scale service.
- Redesigned and **automated NLP engine testing pipelines** with Slack and AWS, **cutting testing and deployment times by 40%**. Initiated taxonomy and project setup web apps to **reduce internal resource allocation time by 80%**, including a Slack app handler for **18% reduction in AWS resource consumption**.

EDUCATION

THE LNM INSTITUTE OF INFORMATION TECHNOLOGY *Bachelor of Technology, Computer Science | 7.11 / 10*

Jaipur, IN
Aug 2019

BIRLA INSTITUTE OF TECHNOLOGY AND SCIENCE *Bachelor of Technology, Computer Science (Hons.) | 9.4 / 10*

Dubai, UAE
Aug 2016

SKILLS

Python, TypeScript, JavaScript, Pandas, PySpark, SKLearn, NumPy, PyTorch, OpenCV, TensorFlow, MLFlow, Matplotlib, Langchain, Haystack, LlamaIndex, FastAPI, Flask, Django, Celery, PyMongo, SQLALchemy, PyAV, Beanie, Selenium, BeautifulSoup, Aiortc, Locust, VueJS, ReactJS, NodeJS, NextJS, Vuex, Redux, Tailwind, Axios, Tanstack Query, Jest, SQL, NoSQL, MySQL, PostgreSQL, MongoDB, Snowflake, ELK stack, OpenAPI Standard, Segment Analytics, Docker, Kubernetes, RabbitMQ, Kafka, Airflow, Redis, Prometheus, Loki, Grafana, ListMonk, AWS, GCP, Azure, AWS Nitro, KMS, S3, EC2, VPC, SageMaker, OpenAI, HuggingFace, Shell, Github, Gitlab, Agile, Scrum, SEO, SDLC, Resource Management, Migrations, ETL, CI/CD, Pertinent Communication, Critical Thinking, Work Ethic, Leadership

ADDITIONAL INFORMATION

A-grades in Machine Learning courses; GRE: **322/340**; IELTS: **8.0/9.0**; awarded **90% scholarship** at BITS. Developed **dynamic MLAN-based Jupyter Notebook ML exam** for LNMIIT (8th Semester) under [Dr. Philip Miller](#). Collaborated with [Dr. Roger Dannenberg](#) on Python examination testing with 96% code coverage for Proxor.
