

# Yash Rai

Software Engineer

• +91 7974825009 • yashhr01@gmail.com • LinkedIn • Bangalore

## SUMMARY

Seasoned software engineer with 3+ years of hands-on experience in software development. Demonstrated expertise in designing and maintaining robust software solutions and websites, alongside managing cloud-based servers. Strong problem-solving skills are central to my approach, enabling me to effectively tackle complex challenges and find innovative solutions. Adept at collaborating with high-performing teams to drive the product development life cycle forward. Known for keenly understanding client needs and delivering timely solutions for maximum client satisfaction.

## KEY SKILLS

**Programming Languages & Technologies:** JavaScript, Node, Express, React, Redux Saga, Ant Design, Python, AWS, Serverless framework, MongoDB (NoSQL), Mongoose, SQL, Git

**Competencies:** Strong problem solving skills, Full Stack Development, Microservices, Cloud Technologies, CI/CD, Troubleshooting, Debugging, Agile Development, REST APIs, Object Data Modeling (ODM), ORM, Analytical Skills, System Design

**Soft Skills:** Teamwork, Self-Driven, Active Learning, Time Management, Rapid Adaptability, Communication Skills, Creativity

**Tools:** Visual Studio Code, GitHub, JIRA, Figma, Microsoft Office, Postman

## ACHIEVEMENTS

- Recognized as "Top Performer of the Month" at Skillgigs (Oct 2021) for outstanding contributions.
- Demonstrated exceptional problem-solving skills by successfully solving 500+ DSA problems on Scalar Academy and LeetCode.
- Played a key role in the successful completion of "Project 03" at Skillgigs, showcasing strong technical expertise and teamwork.

## PROFESSIONAL EXPERIENCE

**Software Developer** Mar '21 - Nov '23  
**skillgigs.com** Remote

- Deployed end-to-end development of MERN Stack projects from conception to deployment, harnessing Node.js, Express.js, MongoDB, and Mongoose to craft scalable RESTful APIs within a microservices architecture. Developed a high-performance Node.js API, resulting in a reduction of 1000 milliseconds in response time, enhancing the speed and reliability of company's application.
- Employed strategic optimization techniques like code splitting, lazy loading, and performance profiling across multiple projects, resulting in a remarkable 70% reduction in page load times. Passionately designed and built a reusable React component library for future use, resulting in a 1/2 of development time for new projects.
- Dramatically improved user experience by seamlessly integrating OAuth solutions from Google, Facebook using AWS Cognito and LinkedIn using 3-legged OAuth Flow. Designed secure authentication and authorization (RBAC) and integrated encryption mechanisms, resulting in the protection of sensitive customer data and a 39% reduction in the risk of security breaches.
- Implemented the Model-View-Controller (MVC) and Flux (Redux) for efficient state management, leading to a 34% reduction in code complexity and a 25% increase in team productivity. Integrated an innovative real-time Websocket chat feature to foster user engagement and interactivity, resulting in increased user satisfaction and longer session durations across various projects.
- Collaborated with the DevOps team to implement CI/CD practices, utilizing services like Amplify and Serverless (AWS) with the Serverless Framework. This effort reduced software release times by 50% and minimized production issues by 30%. Additionally, wrote clean, testable code and cross-browser testing, resulting in a reduction in bug-related delays and an increase in overall code quality.

**Full Stack Developer Intern** Oct '20 - Jan '21  
**Edureka** Remote

Streamlined development using MERN stack and MVC architecture for a **dynamic food ordering website**, featuring OAuth and **Bootstrap** grid system for enhanced content organization. Implemented **SQL** for efficient database content retrieval, ensuring an engaging user experience with a **responsive design** compatible with both wide screens and smartphones.

**Technical Associate** Aug '19 - Dec '19  
**Wipro** Delhi

Provided troubleshooting expertise to internal teams and clients, resolving issues to ensure smooth operation of systems and applications.

## EDUCATION

**Bachelor of Engineering** Aug '15 - May '19  
**Rajiv Gandhi Proudhyogiki Vishwavidyalaya** BHOPAL

**HOBBIES**

Dancing (Urban Hip-hop), Reading(Autobiographies and Self-help)
