

YASH SAWANT

8169388240

sawantyash1331@gmail.com

Self-motivated, Creative and Confident professional. Experienced in Golang, Linux, Micro-services and Database Management.

4 years Backend development experience. Decent experience in developing API from scratch.

EXPERIENCE SUMMARY

- 4 years of experience primarily in the areas of API development, consultancy, maintenance & support.
- Good with task estimation, team building, and handling.
- Strong debugging skills.
- Flexible enough to adapt to new environments.
- Good familiarity with using IDE & Tools like IntelliJ, Linux, Postman, Gitlab, JIRA, VS Code.

EXPERIENCE:

05/2025 - Present: TATA ELXSI.

Senior Software Engineer, TATA ELXSI.

Environment and tools: Golang, Micro services, GIT, VS Code, SQL, Postman, JIRA, Confluence.

Project / Client Name: WBD – WARNER BROTHERS

Project Description:

A subscription management platform for Warner Bros that handled user account authentication and access control using JWT tokens. The system managed subscription workflows, account validation, and secure content access for end-users.

Roles and Responsibilities:

- Contributed to specific tasks such as generating SQL files from data and assisting with testing activities.
- Supported the team with minor development and maintenance tasks during the project timeline.

01/2022 - 03/2025: NIELSEN MEDIA PVT. LTD.

Software Developer, NIELSEN MEDIA PVT. LTD.

Environment and tools: Golang, Micro services, Cassandra, Elasticsearch, GIT, IntelliJ, SQL, Postman, JIRA, Confluence, Linux.

Project / Client Name: NCL – NIELSEN CONTENT LINK

Project Description:

A microservices-based application designed to support various client types (VOD, Broadcast, Cable), each with dedicated screens and workflows. The system enables users to manage VOD(Video On Demand) assets, create and maintain linear schedules for cable clients and broadcast schedules, station-specific data, etc. for Broadcast clients. Core modules include VOD, Cable, Broadcast, Dictionary and Admin each functioning as independent services while working together to provide a unified platform tailored to the logged-in client's type.

Roles and Responsibilities:

- Implemented RESTful services, optimizing performance through Goroutines and Channels.
- Worked with Cassandra, Elasticsearch data backup and restore.
- Migrated our Sybase DB to Cassandra by performing CRUD operations on both databases.
- Thorough testing of the functionality of the API as well as data testing via postman for accuracy of the data.
- Increased code coverage for various GO micro services by implementing comprehensive unit tests.
- Worked with concepts such as Goroutines and Channels.
- Supported other teams in onboarding applications and pipelines, actively participating in troubleshooting and resolving CI/CD pipeline failures.

02/2020 - 02/2021: TECH MAHINDRA.**APPRENTICESHIP: TECH MAHINDRA BUSINESS & SERVICES**

Environment and tools: Golang, Java, VS Code, Sybase ASE, SQL, Micro services, Postman, RESTful web services.

Project / Client Name: ANZ Bank

Project Description:

This project focused on helping ANZ Bank manage customer data more efficiently and make it easier for internal teams to find and use existing APIs. My role involved basic tasks such as handling user data and performing simple operations like creating, reading, updating, and deleting records (CRUD operations).

Roles and Responsibilities:

- Actively interacted with client for requirement gatherings and analysis.
- Understanding the client requirements by studying functional document.
- Optimization of the code for a better performance.
- Customer Recycling where we identified users which are inactive for certain period and recycling, reassigning those customer IDs to new users.
- Basic CRUD operations according to the client requirement.

EDUCATION:**MAY 2019****BACHELOR OF ENGINEERING: THAKUR COLLEGE OF ENGINEERING**

- Completed BE in Electronics with CGPA: 6.5.

MAY 2016**DIPLOMA: THAKUR POLYTECHNIC**

- Completed DIPLOMA in Electronics&Telecommunication with 82%.

HOBBIES:

- Singing, Cricket, Trekking.
