

VIVEK TIWARI

Name: VIVEK KUMAR TIWARI

Email: vivektiwari.tiwari125@gmail.com

MOB: 7905881988

|| Profile Summary

- Dynamically-Driven Career of **4.9+ Years**, Reflecting Pioneering Experience & **Year-on-Year** Success in Multiple **Software Functions**.
- Expertise in Developing **Microservices** using **Spring Boot, Hibernate, JPA, Eureka Server, Eureka Client, Cloud Config Server, Hystrix Circuit Breaker, Resilience4J, Jenkins, Docker, Kafka, Redis, RestTemplate, and Feign-Client**. Proficient in React Native App Development and Deployment on **Google Play Store**.
- Software Engineer with a Proven Track Record in Tailoring Systems to Customer Needs and Implementing Process Improvement Initiatives. Proficient in **Java** and Experienced in Creating and Developing Various **Java-Based Applications**.
- **Experienced** in Overseeing End-to-End Software Development, **Encompassing Design, Programming, Coding, Debugging, and Defect Management**.
- A forward-thinking individual with **robust communication, analytical, and organizational skills**; highly organized with a track record demonstrating self-motivation and creativity in achieving both corporate and personal goals.

|| IT Skill Set

- | | | | |
|---------------------------------|--------------------|--|--------------------|
| • Core Java | Experienced | • RestTemplate | Experienced |
| • Advanced Java | Experienced | • Docker | Experienced |
| • Spring Boot | Experienced | • Kafka | Experienced |
| • Eureka Server | Experienced | • Redis | Experienced |
| • Eureka Client | Experienced | • Kubernetes | Skillful |
| • Cloud Config Server | Experienced | • Linux | Skillful |
| • Hystrix Circuit Breaker | Experienced | • Zenkin's | Experienced |
| • Resilience4J | Experienced | • Design, develop and Application requiring interface (API). | |
| • Hibernate | Experienced | • Perform Java coding for integration work. | |
| • Java Mail Service | Experienced | • Proficiency in developing Java based Microservices | |
| • JPA | Experienced | • Product Enhancement | |
| • Postgresql | Experienced | • Software Development | |
| • JavaScript/AJAX/JSON | Experienced | • Client Servicing | |
| • My SQL | Experienced | • Daily Status Report (DSR) | |
| • MongoDB | Skillful | | |
| • JUnit Test | Experienced | | |
| • Swagger | Experienced | | |
| • React Native | Experienced | | |
| • Feign-Client | Experienced | | |

|| Work Experience

Nov'22 – Present: Coredge IO India Pvt LTD, Noida (SDE-2)

Key Result Areas:

- Crafted software solutions by analyzing information requirements, systems flow, data usage, and operational processes.
- Managed the entire development cycle, from initial product concept to prototyping, software programming, and coding.
- Gathered process specifications and generated use cases for business, functional, and technical requirements.
- Translated requirements into written code, effectively implementing software functions.

Nov'21 – Sept 22 : Liberin Technologies Pvt LTD, Noida (Senior Software Engineer)

Key Result Areas:

- Developed software solutions by analyzing information needs, systems flow, data usage, and workflow processes.
- Managed the entire development lifecycle, from initial product concept to prototyping, software programming, and coding.
- Interpreted process requirements and created use cases for business, functional, and technical needs.
- Translated requirements into written code to implement software functions effectively.
- Provided mentorship to junior team members, aiding in the improvement of their understanding of specific weak areas within subjects or subjects as a whole.

Dec'18 – Oct 21 : Cues Simplify IT Private Ltd, Gurgaon (Software Engineer)

Key Result Areas:

- Developed software solutions by analyzing information needs, systems flow, data usage, and work processes.
- Managed projects from initial product concept to prototyping, software programming, and coding.
- Understood process requirements.
- Transformed the identified requirements into software functions through coding.

Highlights:

- Proficiently leveraged frameworks including **Spring Boot, Eureka Server, Eureka Client, Cloud Config Server, Hystrix Circuit Breaker, Resilience4J, Hibernate, JPA, React Native, Java 1.8, SQL Server, MySQL, and MongoDB** databases to deliver high-quality projects within specified timelines.
- Engineered process-automation tools using **Spring Boot technology, facilitating** accelerated processing of applications.

|| Projects

Project 1: ABHA & PHR Systems

Period::NOV2022 – Currently

Description & Role: NHA project, ABHA & PHR Systems, served as a medium for creating Health IDs and PHR (Public Health Record) Addresses for citizens. CoWIN utilized our APIs for creating HIDs during covid vaccination.

My Responsibilities were to develop the Microservices and Spring Boot Rest API, Migrate the DATA.

Technologies Used: Spring Boot, JPA, Microservices, Postgres, Feign-Client, RestTemplate, Docker, Java, Kafka, Redis.

Team Size: 6

Project 2: Dispatcher Application

Period::NOV2021 – SEP 2022

Description & Role: Dispatcher application is used for the send event, alert, sms, email notification of the user.

My Responsibilities were to develop the Microservices and Spring Boot Rest API.

Technologies Used: Spring Boot, JPA, Microservices, Spring Batch Processing, SQL Server, Java.

Team Size: 4

Project 3: IntelliInvest Android App

Period::JUL 2021 – OCT2021

Description & Role: IntelliInvest is the leaderboard platform in which user can get all NSE-BSE in depth Stock Exchange Trade & Mutual Investment and Analysis and records

My Responsibilities were to modify some of the modules, write cron jobs and Spring Boot Rest API.

Technologies Used: Android, Spring Boot, Microservices, Java, MongoDB.

Team Size: 2

Project 4: Samvad Application

Period::FEB2020 – NOV2021

Description & Role: Samv@d is a digital platform that helps to understand views expressed in Print, Television, Digital and Social media platforms.

My Responsibilities were to develop Spring boot Rest API and React Native App.

Technologies Used: Java, AngularJs, Spring Boot, MySql, Elastic Search.

Team Size: 4

Project5: DMS Implementation Real Estate(Mumbai)

Period: DEC2018 – JAN2020

Description & Role: It is a platform for managing all manual approvals digitally which currently happens offline on the paper.

My Responsibilities was to develop Spring boot Rest API and deployment war file on websphere application server.

Tools/Technologies Used: Spring Boot, Hibernate, JPA,JSP,Bootstrap, Java 1.8, Sql Server 2016.

Team Size: 4

|| Trainings

|||||||

- 6 Months Spring Boot, Hibernate, JPA Training in Ducat Noida-16.

|| Education

|||||||

2018 MCA(2015-18) from IET Dr. Ram Manohar Lohia Avadh University, Faizabad, UP with 72% marks.

2015 BSC(2012-15) from Dr. Ram Manohar Lohia Avadh University, Faizabad, UP with 58.72% marks.

2012 12th from UP BOARD with 69.40% marks

2010 10th from UP BOARD with 63.83% marks
