PROFESSIONAL SUMMARY

- Experienced GCP Data Engineer with expertise working across GCP services like BigQuery, Dataflow, Cloud Storage, Cloud Functions, SQL. Have good knowledge in python and GCP services building robust data engineering solutions for enterprise-level operations. Proficient in data warehousing solutions and troubleshooting complex issues.
- Prior experience in java and REST API services.

WORK EXPERIENCE

Software Engineer | Fossil Global Services India | Bengaluru April 2022 - Present

- Working as GCP Engineer building enterprise level data engineering solutions, troubleshooting and improving performances of existing solutions there by saving cost to company.
- Developing well defined dataflow pipelines to collect data from multiple sources like SAP MM, SAP AFS, SAP BW, Amperity, Akineo PIM followed by designing warehouse schemas and storing the data in data warehouse.
- Creating table views and providing access to the business users to access data in data warehouse.
- Developing Cloud functions using Python related to dataflow and storage specific operations
- Working on GCP Big query, Dataflow, GCP Logger, GCP Identity and Access Management (IAM), GCP Cloud Functions, GCP Cloud Storage, Virtual Machines (VM), Cloud Scheduler, SQL
- Dive deep on resolving the issues and providing unique fixes for the failures encountered related to the GCP services in the existing Projects in the organization.

Software Engineer | Unilog Content Solutions | Mysuru November 2020 – April 2022

- Developed B2B web applications using Java Microservices, Java Spring Boot, GCP Kubernetes Engines, Cluster management.
- Worked on establishing SMTP connections, write Apache Solr queries and SQL for the database related queries.
- Developed REST API's using spring boot and performed testing in Postman.
- Worked on setting up Google Analytics Dashboard and strategies for the ecommerce websites.

Software Engineer | Cerner Healthcare Solutions India | Bengaluru | August 2018 - February 2020

- Worked in Inpatient Pharmacy software supporting the change requests in existing applications which is widely used across hospitals in United States.
- Developed Java API services using maven framework in an agile environment based on the business requirements adhering to the rules and regulations of FDA, CHIA and DUA.
- Responsibility included writing, testing and debugging application software.

TECHNICAL SKILLS

- SQL, Google Cloud Platform (GCP), GIT, Python, Java, Looker Studio and Tableau

ACADEMIC QUALIFICATION

- Bachelor of Engineering in Information Science and Engineering, Vidyavardhaka College of Engineering, affiliated to Visvesvaraya Technological University, Karnataka, India
Aggregate: 81.65%; Rank: 9 to the university 2014-2018

AWARDS AND ACHIEVEMENTS

- 9th *rank* holder of the department Information Science and Engineering, Visvesvaraya Technological University, 2018.
- Awarded 'Night of the town' (bi- yearly) in Cerner Healthcare for developing dashboard using Tableau for Inpatient Pharmacy Jenkins jobs trend.
- Awarded "Star Award Winner - Q2 2022", "Spot Award Winner – Q4 2022 " ,"Greater Together Award - 2022 " in Fossil Group, "Star Award Winner – Q4 2023", "Spot Award Winner – Q1 2024"

CERTIFICATIONS

- "Introduction to Data Science in Python" authorized by University of Michigan URL: coursera.org/verify/M4PWCKC7LYF7.
- "Google Analytics for Beginners" course by Google Analytics for Beginners.
- Product Analytics Certification (PAC) TM certification by Product School, Inc. and Mixpanel.
