

Offering **nearly 5 years** of experience in cloud development with skills in Agile methodology, specializing in AWS development and DevOps assignments. Actively targeting opportunities to leverage in-depth knowledge of AWS services, drive automation, and implement cost optimization. Dedicated to achieving outstanding outcomes and propelling organizational growth.

PROFILE SUMMARY

- Actively contributing as a Senior Software Engineer at Accenture Services Private Limited, with a deep emphasis on the AWS environment and expertise in the Jenkins build tool
- Skilled in crafting CI/CD pipelines in Jenkins, seamlessly integrating GIT and AWS Lambda for streamlined automation
- Rich knowledge in Microservices and AWS Lambda Serverless Architectures
- Successfully obtained the AWS Certified Developer Associate and AWS Certified Solutions Architect – Associate certifications
- Proficient in Spring and Spring Boot frameworks, with a comprehensive grasp of the Healthcare domain

WORK EXPERIENCE

Jan'19 - Till Date with Accenture Services Pvt. Ltd., Hyderabad as Senior Software Engineer

Key Result Areas:

- Spearheading the creation of advanced monitoring solutions for the AWS-hosted project infrastructure, collaborating with a team of 6 members
- Establishing, optimizing, and upholding the infrastructure on AWS Cloud services, encompassing VPC, EC2, RDS, S3, Route53, SNS, CloudFront, and CloudWatch
- Devising intricate IAM policies, roles, and user management protocols to facilitate delegated access within the AWS environment
- Collaborating with version control systems such as Subversion and GIT, leveraging source code management tools like GitHub and Bitbucket
- Deploying cutting-edge security tools like Qualys, New Relic, and CloudWatch to proactively monitor and prevent unauthorized access to websites
- Documenting installation procedures for diverse tools while delivering prompt on-call support
- Executing critical infrastructure maintenance tasks, guaranteeing optimal system availability, performance, capacity, and continuity
- Orchestrating the design and upkeep of GIT repositories, delivering comprehensive day-to-day GIT support
- Resolving intricate DNS level issues while successfully hosting multiple websites on the platform

Highlights:

- Successfully deployed a range of dashboards, metrics, alarms, and notifications on servers utilizing AWS CloudWatch
- Led the implementation of caching and routing policies through a content delivery network (CDN) using Akamai/CloudFront, resulting in significant enhancements to page speed
- Spearheaded the implementation of end-to-end CI/CD pipelines, integrating BitBucket, Jenkins, AWS CodeCommit, CodeBuild, CodeDeploy, and CodePipeline to achieve seamless automation from commit to deployment
- Orchestrated the complete reconstruction of the project's AWS architecture, ensuring optimal performance and security behind the Palo Alto Firewall

Project: MERCK Pharmaceuticals (Aug'19 - Till Date)

- Domain:** Healthcare
- Tech Stack:** Spring Boot, AWS Services (IAM, EC2, S3, Lambda, DynamoDB, Kinesis, API Gateway, CloudWatch, CloudFront, Cloud Formation, Route 53, Secret Manager, CloudTrail, Kinesis, RDS, DataPipeline, CodeCommit, CodeDeploy, CodePipeline), Spring, MySQL, Hibernate, Maven, Windows 7, Tomcat, SoapUI
- Description:** Merck Pharmaceuticals is a UK based pharma company for which websites are developed for healthcare professionals in different countries which provides users information to the different kinds of vaccines and researches in medical science to most challenging diseases

CORE COMPETENCIES

Cloud Operations	Infrastructure Management	AWS Development
DevOps Engineering	Project Execution & Management	Client & Stakeholder Management
CI/CD & Agile	Shell / Python Scripting	Server Management

CERTIFICATIONS

- AWS Certified Developer Associate Certification (DVA-C01) (Validation No. M77ZR6EJN2RQQJSH)
- Certified AWS Solutions Architect-Associate Certification (SAA-C02) (Validation No. K28NDSBCSBB11C5Y)

ACHIEVEMENTS

- Received iChamp Award 2 times for being the best employee

EDUCATION

- 2018: MCA** from Osmania University, Hyderabad
- 2015: B.Sc. (MCCS)** from Kakatiya University Vivekavardhini Degree College, Mancherial

TECHNICAL SKILLS

- Proficient in a wide range of AWS Services, including IAM, EC2, S3, CloudWatch, CloudFormation, Lambda, API Gateway, Route 53, Secret Manager, DynamoDB, CloudTrail, Kinesis, RDS, DataPipeline, CodeCommit, CodeDeploy, CodePipeline and so on
- Strong command over programming languages such as Java and Spring Boot
- Experienced in Shell Scripting for automation tasks
- Familiar with defect tracking tools like JIRA, ServiceNow
- Proficient in build tools like Maven, Gradle and Jenkins
- Skilled in working with IDEs/Tools like Eclipse, IntelliJ and Spring Tool Suite
- Rich Knowledge in databases like MySQL, SQL, and Hibernate
- Experience in operating systems like UNIX, Linux, and Windows

PERSONAL DETAILS

- Date of Birth:** 3rd December 1994
- Address:** Hyderabad
- Languages Known:** English, Hindi, Telugu
