SUMMARY

12 Year of Experience in **leading/building/architecting** end to end enterprise applications using various web technologies like **Java, Golang, Nodejs** in **micro service/event based** asynchronous architecture.

In my recent years at **Captainfresh** and **Livspace**, major focus was on building core teams for **data platform** and **core engineering**, Building and leading a team of couple of dozen members on a day to day basis while supporting them on **technical** and **architectural** challenges at times. I have built core systems like **Fishgram(CF)**, Designer project management tools(LS) and other **supply chain** tools on the five year stint at **Livspace**.

EXPERIENCE

Co Founder

Dabluu 11/2022 - Present Bangalore

An effort to unify EV charging network

- Building the next gen **EV charging infra**. Leading **zero to one** for ev sector. Focused on **product growth and technology**.

VP of Engineering

Captainfresh- Global Trade Platform 08/2021 - 11/2022 Bangalore

Global platform for Animal Protein trade

- Built and lead the early stage of Community and Trading platform for Fisherman community across globe.
- Team building. Handled a **18 member team** and two leads in two verticals
- Product scoping and market analysis.
- Decision making
- Driving a tech team for a zero to one product.
- Approximated tech stack for **daily trade of 2Mil**

Founder

Stealth 11/2020 - 11/2021 Bangalore

Effort to stream line remote education on tier two institutions

- Founded** and lead the **early stage growth and product** for open education platform. The platform was developed for supporting schools and institutions to perform online classes effectively during the time of COVID-19.

Director of Engineering

Livspace 04/2019 - 11/2020 Bangalore

India's Largest Home interior Platform

- Built, mentored and led three teams of diverse functionality, data platform, core engineering, Ecommerce, and dev ops.
- Managed **8 to 13 member** on a day to day basis.
- Managed Upto **30 members** indirectly across multiple teams
- Architected and evolved the data platform to highly scalable way to support next gen problem at LS
- Helped teams on a day to day basis on various tech and moral support to build awesome products at Livspace.
- Tech stack was on **Kubernetes, docker, AWS, redshift**, storage optimisation, **Golang, Java** and **python**
- Handled volumetric and operational scale of Livspace when it is reaching **300 Crore sales in India**

Software Architect

Livspace 04/2017 - 03/2019 Bangalore

India's Largest Home interior Platform

- Architecting business critical software and features.
- Leading **8 member team**.
- Major project as an architect was contributing towards India **GST revolution** in One month release
- Spot award from CTO for **best team delivery**
- Tech stack of java spring and Golang
- Operations and Volume scale at **150 crore of sales**

SKILLS

Leadership qualities

Listener	Visionary	Strategic
Good Communicator	Zero Ego	Mentor
Stakeholder mgnt	Collaborative	
Motivator	Inspire	Appricate
Empathize	Creative	Learner

DevOps Tools & Monitoring

AWS	GCP	Kubernetes	Docker
Jenkins	Github Actions	Gitlab Pipelines	
Chef	Devtron	Grafana	NewRelic
PageDuty	Grafana Loki	Prometheus	

Technology Experience

Golang	Java	Javascript	Dart
Kotlin	Distributed Systems		
Messaging Queues	RabbitMQ	Kafka	
NAT	Redis	Mongo	MySQL
Postgress	Websockets Clustering		
Chat Systems	Event driven System		
Zeebe	Workflow driven systems		
Temporal	Cadance		

EXPERIENCE

Software Developer III

Livspace 06/2015 - 04/2017 Bangalore

India's Largest Home interior Platform

- Involved in end to end **system design** for Livspace.com business commerce software
- Leading **three member team**, **mentoring** juniors
- Built **Inventory management system** and **Order management** system from scratch
- Involved in business requirement discussions in order to deliver better product
- End to End ownership** and, and produced high quality deliverables
- Major tech stack was **java**, **spring boot** and **python**

Software Developer II

Jabong 07/2014 - 06/2015 Bangalore

Leading Online Fashion Store - Now **Myntra Jabong**

- Built the new payment system for Jabong and contributed to bring the post checkout conversion from **less than 60% to more than 98%**.
- Handled A **peak traffic of 30k req per sec**

Application Engineer
