Salesforce Developer skilled in Apex, Triggers, Asynchronous apex, SOQL, LWC, cloudcraze data model. Proficient in Apex programming, Trigger, test class, LWC, Chatter REST and Data Integration. Adept at collaborating with cross-functional teams to deliver high-quality application solutions. Strong problem-solving skills and a passion for staying up to date with industry trends and best practices. Looking to continue contributing to the growth of the organization and develop my skills.

SKILLS

Salesforce, CloudCraze – Data model & configurations, Apex Programming, Triggers, Test class, Report, Security Model, Data Integration using ETL – Pentaho, Workbench, Dataloader.io, SOQL, REST API, Chatter REST API, Asynchronous apex, Configuration, Flows, Aura, LWC, Visualforce, Other tools – Postman, Git/Github, ANT migration tool, Streaming API, VS code, Azure DevOps, MS office, Adobe Photoshop.

EXPERIENCE

SENIOR SALESFORCE DEVELOPER

MARCH 2025 – Present

Gritstone Technologies, Kerala

Working as a Salesforce Developer in a dedicated team to design and build Experience Cloud sites for managing demographic data and related features.

PROJECT

Working on an EHR-based project utilizing Experience Cloud sites to manage patient interactions and related activities.

- Enhanced existing Aura components and implemented new features using Lightning Web Components (LWC).
- Developed Visualforce pages for PDF generation and leveraged out-of-the-box automation tools. Implemented complex business logic through Apex triggers and asynchronous Apex (Batch, Queueable, and Future).
- Integrated patient data using REST APIs for both callouts and inbound web services.
- Handled multiple Callouts in a single UI page to do different functionalities – (LWC, Apex callouts).
- Technologies used include Apex, Triggers, Aura, LWC, Visualforce, Asynchronous Apex, and REST-based data integrations.

Worked on Integration support with a Headless architecture project to pull data from salesforce and collaborated with the team to achieve the data Integration.

ASSOCIATE TECHNOLOGY L2

APRIL 2021 – MARCH 2025

Publicis Sapient, Bengaluru

Worked as a Salesforce developer in cross-functional team to design and develop microservice based ecommerce, collaborative applications.

PROJECTS

Agribusiness | collaborative application:

Worked on a collaborative project for a global food corporation, enabling multi-user engagement around business products and services through idea sharing.

- Responsible for end-to-end development, deployment, unit testing, and bug fixing of Salesforce solutions.
- Designed and maintained scalable REST APIs, implemented Apex triggers and Flows for automation, and integrated Chatter using ConnectAPI and Chatter REST APIs.
- Handled large-scale data operations via external jobs, REST APIs, and system-level triggers, along with ETL activities using Pentaho.
- Optimized SOQL queries for performance, ensured data consistency, and collaborated with QA for validation and quality delivery.
- Experienced in Apex (including asynchronous patterns like Batch, Future, and Scheduled), JWT-based integrations, and monitoring DevOps pipelines.
- Generated business reports and worked extensively with the CloudCraze data model and Salesforce configuration.

Skills used: Apex programming, Triggers, Chatter REST API, JWT Bearer token, Data Integration, CloudCraze data model, SOQL, Configuration, Report, Flow.

Agribusiness | e-commerce application:

Worked on an e-commerce project leveraging Salesforce's managed package CloudCraze, focusing on B2B operations and entitlement functionalities.

- Utilized and extended the CloudCraze data model and custom APIs to support business requirements.
- Designed optimized SOQL queries for efficient data indexing and handled bulk data operations using Bulk API 2.0, Pentaho, Workbench, and Dataloader.io.
- Created and maintained Apex Triggers to subscribe to the platform event, ensuring efficient processing of incoming data from middleware.
- Developed and managed custom REST APIs while ensuring stability of existing integrations.
- Actively participated in sprint releases through unit testing and deployment activities, and provided ongoing support to QA and SpringBoot teams for data-related needs.

Skills used: Apex programming, Triggers, CloudCraze, Bulk API 2.0, SOQL, REST API.

CERTIFICATIONS

Salesforce Certified JavaScript Developer I	Salesforce
Salesforce Certified Administrator	Salesforce
Salesforce Certified Platform Developer I	Salesforce
Salesforce Certified Platform App Builder	Salesforce
Salesforce Certified AI Associate	Salesforce
Salesforce CloudCraze B2B	Publicis Sapient
Get started with Azure Devops	Microsoft
Salesforce CPQ: Salesforce CPQ Basics for Admins	Udemy
Salesforce Development Training	Udemy

EDUCATION

BTech Computer Science and Engineering
Kerala Technological University
CGPA: 6.79

ACHIEVEMENTS

1. Presented the Cloudcraze features and project capabilities to Publicis Sapient's Salesforce CoE team.
2. Completed Salesforce certifications.
3. Flood relief and Rehabilitation work done by IEEE SB got global appreciation in 2018
4. Participated in Photoshop workshop organized by IEEE SB
