Location: India

Summary

- IT professional with 7+ years of experience in DevOps, IT, and Cloud (AWS, GCP).
 - Skilled in building and mentoring high-performing engineering teams.
 - Proficient in automation, optimization, and infrastructure security.
 - Expertise in cloud migrations (on-prem to cloud and intercloud), app containerization, and scaling.
 - Proven success in architecting CI/CD pipelines, observability solutions, and disaster recovery systems.
-

Core Competencies

- **Cloud Computing:** AWS (EC2, S3, RDS, CloudFormation, Lambda, IAM, cloudwatch), GCP (GKE, VPC, Monitoring).
 - **Infrastructure Automation:** Terraform, Ansible, Pulumi, CloudFormation.
 - **CI/CD Pipelines:** GitHub Actions, Jenkins, Concourse.
 - **Monitoring & Logging:** Prometheus, Grafana, New Relic, Splunk APM, CloudWatch.
 - **Programming:** Python, Golang, Bash scripting.
 - **Containerization & Orchestration:** Docker, Kubernetes (Autoscaling, External Secrets, Karpenter).
 - **Security Compliance:** SOC2 audit preparation, cloud security audits.
 - **Project Management Tools:** Jira, Trello.
 - **Disaster Recovery & Scalability:** Designing automated failover mechanisms and recovery solutions.
-

Professional Experience

Senior SRE Engineer

Aqfer India Private Limited

June 2023 – Present

- Maintained Kubernetes environments on AWS and GCP, optimizing deployment efficiency by 40% through the use of auto scaling and integrations such as Karpenter and External Secrets Operator.
- Built and enhanced CI/CD pipelines using Concourse, achieving improved deployment efficiency and operational reliability.
- Automated infrastructure provisioning using CloudFormation and Pulumi, achieving a 30% reduction in manual intervention.
- Integrated Prometheus and Grafana for real-time monitoring, resulting in a 20% improvement in resource utilization.
- Provided 24x7 support for critical product issues during monthly on-call rotations.

SRE Team Lead

Apton Works Pvt Ltd

September 2021 – May 2023

- Managed cloud environments (AWS, GCP) to ensure high availability and scalability of critical applications.
- Directed the development and implementation of CI/CD pipelines using Jenkins and GitLab CI, achieving seamless application deployment.
- Automated repetitive tasks with Python and Golang, reducing operational time by 20%.
- Configured and deployed Kubernetes clusters with autoscaling capabilities, increasing system reliability and fault tolerance..
- Mentored junior engineers, improving team productivity and skill levels.

DevOps Team Lead

BuyersRoad India Pvt Ltd

January 2021 – August 2021

- Administered AWS cloud infrastructure, including EC2, VPC, EKS, and CloudFront, ensuring secure and scalable operations.
- Led a team of engineers, fostering collaboration and delivering projects on time.
- Designed Jenkins pipelines to streamline and automate deployment processes.
- Developed disaster recovery strategies for databases and applications, reducing downtime during incidents.
- Optimized Dockerized applications for improved performance and reduced resource consumption.
- Configured network security through VPC, VPNs, and IAM roles.

DevOps Engineer

Zyudly Labs Data Solutions Pvt Ltd

January 2018 – December 2020

- Built and maintained CI/CD pipelines, automating configuration tasks with Python scripts.
- Managed AWS services (EC2, S3, RDS, Lambda) to support scalable infrastructure.
- Monitored system performance using CloudWatch, reducing incident resolution times.

- Dockerized applications, improving portability and deployment speed.
-

Education

B.Tech in Computer Science and Engineering

[Calicut University, 2013–2017]

Key Achievements

- Migrate applications from on-prem to cloud and inter-cloud platforms, enhancing scalability and cost efficiency.
- Designed and deployed real-time data pipelines for seamless data streaming and processing.
- Implemented comprehensive monitoring solutions, ensuring full observability of infrastructure and applications.
- Developed automated disaster recovery strategies, reducing downtime by 40%.
- Contributed to successful SOC2 audit preparation, improving organizational compliance and security posture.
