WORK EXPERIENCE

Senior Software Engineer

Altimetrik)

12/2021 - 10/2023

India

Achievements/Tasks

- Worked on upgrading framework and improving code coverage of the project.
- Worked on payment related KYC API's for the Client.

Full Time Software Developer

Lentra AI Pvt Ltd (<https://lentra.ai/>)

07/2018 - 09/2021

Pune,India

Achievements/Tasks

- Awarded Star performer award for Aadhar based EKYC 2.5 project- 2018.
- Participated and Stood at 3rd place in Inhouse organized Hackathon for Aadhar and PAN based OCR over REST service.

Intern Software Developer

Softcell Technologies

01/2018 - 06/2018

Pune,India

Achievements/Tasks

- Developed an Multi-Threaded Utility based tool to Authenticate bulk aadhar numbers from CSV using UIDAI API. Under the guidance of the Tech Lead, Organized and structured Aadhar based EKYC 2.5 ecosystem for the business.

EDUCATION

Bachelor in Computer Engineering

D Y Patil College of Engineering

08/2015 - 05/2018

Akurdi,Pune

Project

- Detecting Malware in Android using System calls with the help of Machine learning algorithms
- Result Analysis System

Diploma in Computer Engineering

Y B Patil Polytechnic

07/2012 - 05/2015

Akurdi,Pune

Courses

- JavaCup visual editor

SKILLS

Java

Springboot

Apache Kakfa

REST

Microservice

Maven

Gradle

JUnit

HTML

Code Coverage

CSS

Javascript

Angular 8

PostgreSQL

JPA

MongoDB(NoSQL)

Redis

Apache Benchmark

Linux Shell scripting

Swagger

Data Structures

Design Patterns

Code optimization

Git

Java Cryptography

Multithreading

TDD

Jenkins

Splunk

SonarQube

Postman

PROJECTS

Smart-Interfaces (07/2018 - 10/21)

- Completed integration of 35+ third party REST API's project and hosted them as Microservice. Notable integrations : NSDL PAN, Perfios, Karza, Finbit, Idfy, Hunter, Email gateway, OEM's.
- Secured API's through Token based authentication mechanism.
- Developed Alerting mechanism using Apache Kafka,Apache Storm and Hystrix Circuit Breaker.
- ~25 lakh request per day traffic was observed on the services.

Gogetr (07/2020 - 10/21)

- Incorporated functionally similar Third party utility API's by standardizing request and response for high availability of the functional service.
- Implemented Workflow, for directing API's flow of execution in the system (Thingsboard was used as an interface for achieving the same)
- Deployed Caching mechanism for vendor configuration using Redis

EKYC 2.5 (01/2018 - 09/2018)

- Integrated Official UIDAI EKYC 2.5 API for the Business.Developed AadharVault Implementation for the same.
- Developed dashboard to represent metrics of the business application to the Client
- ~2 lakh requests traffic was observed daily with the success rate of 97%.

Payment-KYC Module (01/2023 - 05/2023)

- Developed REST API's to validate Client KYC documents country specific wise (Australia and Canada).
- Handled Integration Tests and Code coverage for the project.
