Executive – HR Operations | Strategic Process Owner | Stakeholder Manager

PROFESSIONAL SUMMARY

Results-driven HR Operations professional with over 9 years of experience managing end-to-end HR lifecycle processes, onboarding, compensation, internal mobility, stakeholder management, and process transformation across global teams. Began career with RBS (Chennai) supporting Citizens Bank, transitioned via rebadging to Infosys BPM, and chose to move into HR—eventually becoming a foundational member of Google Operations Center (GOC).

Known for driving high-volume HR operations, process automation, SLA compliance, and seamless coordination across India and the Philippines. Played a pivotal role in rebadging initiatives, process design, and ATS transitions at GOC. Recognized for building scalable systems, mentoring teams, and owning delivery of HR services from initiation to closure. Actively seeking a long-term opportunity in a global HR Operations role focused on excellence, innovation, and operational integrity.

KEY SKILLS & TOOLS

- **HR Operations:** Hire-to-Retire lifecycle (Onboarding to Payroll queries)
- **Tools:** Workday, GUTS, Greenhouse ATS, Google Workspace, MS Office
- **Process Ownership:** SOP creation, onboarding workflows, SLA tracking
- **Automation:** Ticket automation, reporting dashboards
- **Stakeholder Management:** HR & TA Directors, global teams, vendor management
- **Compensation:** Offer structuring, bonus approvals (spot, retention, referral, relocation)
- **Reporting:** HR Ops metrics, tracker design, global HR presentations

PROFESSIONAL EXPERIENCE

Google Operations Center (GOC) – Hyderabad / Remote

Executive – HR Operations (via Infosys BPM, IBM, then GOC Payroll)

Apr 2019 – Jun 2024

- Built onboarding SOPs from scratch for India & Philippines; managed offer release, RTW, BGC, ID creation, and day-1 logistics.
- Owned GUTS (Google Unified Ticketing System) queues globally and set SLA standards (95%+ adherence).
- Managed compensation mapping, salary discussions, and coordinated bonus initiations (spot, retention, referral) via Workday.
- Spearheaded rebadging of 4000+ employees across multiple phases with full ownership of operations, reporting, and process optimization.
- Automated ticket creation saving 5+ hours/month per recruiter, contributing to operational excellence.
- Led internal movements: released letters, initiated benefits, and managed relocation coordination.
- Designed and presented HR Ops reports quarterly for global stakeholders.

- Played a key role in ATS transition from Greenhouse to Workday, aligning data flows and improving team efficiency.
- Managed a team of 10+ vendor associates in India & Philippines and trained them on the complete HR operations lifecycle.

Infosys BPM (Client: HSBC) – Hyderabad

HR Operations Associate

May 2018 – Mar 2019

- Transitioned from banking backend to HR by choice; deployed at HSBC TA project.
- Managed sourcing, interview scheduling, and candidate engagement for talent acquisition

Infosys BPM (Client: Citizens Bank) – Chennai

Senior Process Executive – Banking Backend

Oct 2016 – May 2018

- Provided backend operational support for Citizens Bank, focusing on case processing, documentation accuracy, and SLA compliance.
- Conducted quality checks, generated performance reports, and supported customer service workflows.
- Played a key role in process improvements and trained new team members on operational standards.

RBS (Client: Citizens Bank) – Chennai

Process Executive – Banking Backend

May 2015 – Oct 2016

- Transitioned to Infosys BPM via client-led rebadging.

KEY ACHIEVEMENTS

- **Led the global rebadging and onboarding of 4,000+ employees** at GOC, reducing cycle time from 2 months to 2 weeks through process optimization and automation.
 - **Designed and implemented full HR onboarding SOPs** for India and the Philippines from scratch during GOC's startup phase.
 - Maintained **95%+ SLA compliance** for global HR ticketing support via GUTS (similar to ServiceNow), handling queries across payroll, benefits, and onboarding.
 - **Created automation** that saved 58+ hours/month for recruiters by integrating ticketing with tracker-based workflows.
 - **Initiated and managed all compensation-related bonus workflows** (spot, referral, relocation, retention) via Workday with 99%+ accuracy before payroll cutoff.
 - Played a key role in **ATS migration from Greenhouse to Workday**, optimizing the onboarding module for better team performance.
 - **Trained and managed a 10+ vendor team** across India and the Philippines to ensure seamless HR operations continuity.
 - Held **weekly office hours** during rebadging to address live employee queries on appraisals, policies, and internal mobility.
 - **Created self-service reporting dashboards** using Excel pivot tables to give HR and TA directors real-time process visibility.
