Javascript, Go, Node.js, React.js

Experience

Lead Software Engineer, Pramata Knowledge Solutions

Aug 2019-Present

Decreased contract digitization time by 80% reducing costs by 70%

- Engineered a search algorithm which helped reaching relevant data faster
- Designed and developed an LLM based validation and extraction mechanism
- Technologies used: Go, Node.js, MySQL, AWS Opensearch(Elasticsearch), AWS Bedrock, OpenAI (Gpt 4), AWS Lambda, AWS SQS, AWS s3

Managed migration to Micro-frontend architecture

- Prototyped and released some applications on the Micro-frontend architecture
- Planned for dissection of the monolith with different teams and executed it
- Setup a CDN for faster content delivery
- Technologies used: Javascript, React.js, Webpack, single-spa, AWS cloudfront, AWS s3, Bitbucket Pipelines for Continuous Integration

Solved reliability issues enabling product launch helping save \$200K

- Established and Managed the SRE team. Created a monitoring and alerting framework.
- Improved end to end system monitoring by using Application Performance Monitoring, Real User Monitoring and Synthetic Monitoring
- Implemented Alerting and Monitoring for third party infra services
- Improved the performance of various heavy traffic services by employing optimization techniques
- Technologies used: NewRelic, AWS Cloudwatch, AWS EKS, Go, Javascript, MySQL

Open Source Contributions & Side Projects

Contributor at [microsoft/vscode](#) (155k stars)

- Fixed a bug related to commit message history on the code editor
- Explained the issue and the fix to the maintainers who liked it and accepted it
- Technologies used: React.js, Typescript

Software Engineer, gRhapa Solutions

May 2018-Aug 2019

Developed various services for the e-commerce application

- Engineered a robust payment service, facilitating seamless integration and communication between multiple internal systems and the external Payment Gateway.
- Developed a comprehensive booking service, encompassing features such as listings, reservation management, and invoice generation.
- Technologies used: Go, Express.js, PostgreSQL, Loopack.js

Education History

- Bachelor of Engineering in Computer Science from Shri Ramdeobaba College of Engineering and Management (May 2015–May 2018)
- Diploma in Computer Engineering from Govt. Polytechnic Nagpur (May 2012–May 2015)
