## WORK EXPERIENCE

The Morning Context [↗](#)

08 2023 – Present

*Lead Engineer*

*Remote*

- Managing the entire tech stack for TMC, including website, infrastructure, and app.
- Developed the tech for syndication with Bloomberg, resulting in a partnership between the organizations.
- Increased overseas revenue by creating demographically-targeted subscriptions and restricting specific subscriptions.
- Implemented alarm systems and triggers to alert the team in case of technical issues.
- Revamped pricing flow, improving user experience and increasing revenue.

Newzera [↗](#)

02 2022 – 07 2023

*Software Engineer (Full Stack)*

*Indore, Madhya Pradesh*

- Managed AWS infrastructure for Newzera CMS and improved news publication efficiency by creating an AI workflow from news collection to summarization.
- Created the entire [Newzera.ai](#) website (for auto generated news using AI) from scratch using nextjs and graphql and set it up on AWS s3 and cloudfront.
- Created video trimming interface in front-end using WASM, ffmpeg and reactjs.
- Reduced Elasticsearch querying time by 80 percentage by optimizing index shards.
- Created a micro-service to convert Adobe After Effects lottie files to video for automating news video generation using nodejs and ffmpeg.
- Created an interface and service to automate social media postings directly via CMS using n8n and Node.js, reducing costs for external services.
- Created entire flows for bytes posting as well as video postings via CMS to the Newzera app using reactjs and graphql and wrote unit tests for the same using jest.
- Mentored 1 FTE, 5 Interns and interviewed around 20 candidates for SDE-1 roles at Newzera.
