Work Experience

FunctionUp (Edtech)

Product Manager

July 2023 - April 2024 Bengaluru, India

Product Management

- Optimized the user experience of admission journey which led to **increase in website registration rate by 333%** (from 5-6% to 20%)
- Directed product marketing campaigns that leveraged **SEO** best practices to generate an average of 300 organic website visits per day.
- Streamlined the application process by implementing live calling and WhatsApp workflows, achieving a **300% improvement in application completion rates**.
- Led user research efforts, employing incentives and scheduling 15-minute user interviews, to gather actionable insights for product improvement.
- Led the development and implementation of an assignment management system, currently processing over 4500 student submissions per semester.
- Optimized website funnel by adding multiple entry points and **improved conversion by 20%** by A/B testing different CTAs.

Growth Hacking

- Ideated & implemented 'Collegeshaala,' a 'give, give, give' platform attracting high-value leads (12th graders) & achieving a strong **DAU of 1,000** with a D10 retention rate of 42%.
- Optimized influencer marketing strategy** by shifting focus from numerous smaller YouTubers to a select group of high-impact YouTubers (avg subs: 1-5M, avg views: 800k).

ContractFlo (Real Estate B2B SaaS)

Cofounder

Nov 2020 - May 2023 New Delhi / Bengaluru, India

Product Management

- Led ContractFlo, a real estate superapp (investment, management, payments, networking) **from concept to launch** for the US market. (0-1)
- Prioritized module developments within ContractFlo, crafting a comprehensive product roadmap that accelerated the launch process by two months.
- Conducted **market research and user surveys** to identify real estate investor needs and used data-driven insights to develop a tailored **MVP** for investment analysis.
- Optimized user flows to **achieve a 35% faster TAT** compared to market standards, benefiting over 100 users.
- Coordinated with cross-functional teams (design and tech) in creating user-friendly interfaces for ContractFlo's core modules (network, analysis, management, dashboard).
- Developed user personas** based on extensive market research (census, NAR reports, social media analysis) to streamline the platform for underserved investor needs.
- Added 30% more fine tuning parameters** compared to market standards for offer price calculations, useful for inexperienced investors.
- Rigorous analysis of **real estate B2B SaaS** products in the US market to identify gaps in the existing solutions.

Competitive Exam Prep

Jul 2015 - Jan 2021 New Delhi, India

- UPSC Mains:** Demonstrated strong academic preparation and problem-solving skills by qualifying for the Mains exams thrice in Civil Services and once in the Forest Services.
- UPSC-CAPF Interview:** Advanced to the interview stage for the UPSC Central Armed Police Forces, showcasing my ability to impress a competitive interview panel.
- SSB Interview:** Completed the rigorous 5-day SSB interview for the CDS exam, demonstrating exceptional leadership potential.
- UPPSC Interviews:** Appeared for the interview stages of both the UPPSC Civil Services and Forest Services exams, highlighting my dedication and comprehensive preparation.

Education

B. Tech. (Petroleum Engg.)
IIT (ISM) Dhanbad, 2015

Product Management
Fellowship, 2023

Career Highlights

FunctionUp - Product
Management

Led the development of FunctionUp School of Technology's website and improved organic traffic and high intent leads and optimized user's admission journey and conversion rate.

ContractFlo - Cofounder

Co-founded ContractFlo, where I conducted market research and competitor analysis in the US real estate sector. Led cross-functional teams to develop and implement a product for real estate investment analysis on the 0-1 journey.
