

VISHAKHA YADAV

TEST ENGINEER

+91 7024054811 | vishakha.yadav1104@gmail.com

SUMMARY

Test Engineer with 2 years of experience in Manual and Automation Testing of web applications in the nursing education domain. Skilled in Selenium WebDriver with Java, TestNG, Maven, API Testing (Postman), and JIRA. Strong knowledge of Functional, Regression, and UI Testing while working in Agile/Scrum methodology.

TECHNICAL SKILLS

Java	Selenium Python	UI Automation
BDD Cucumber	JIRA Tool	API Testing
Selenium WebDriver	GIT	Tricentis Tosca

PROFESSIONAL EXPERIENCE

Domain: Nursing Education | Type: E-Learning & Healthcare Application

MAR 2024 - PRESENT

- **Description:** The platform enables nursing students to learn through online modules(IC), take tests, and prepare patient reports in the EHRT module. Faculty can evaluate, grade, and provide feedback, while Super Users and Admins manage users, courses, and reports.
- **Responsibilities**
 - Designed & executed test cases and test scenarios.
 - Performed manual testing (functional, regression, smoke).
 - Performed API testing using Swagger/Postman (request/response validation, status codes, error handling).
 - Reported and tracked defects in JIRA.
 - Prepared test summary reports.

Domain: Healthcare

AUG 2023 - MAR 2024

- **Description:** An internal web-based application developed for healthcare operations and content management.
- **Responsibilities:**
 - Focused on Automation Testing using Selenium WebDriver, Java, and BDD Cucumber Framework.
 - Designed and implemented BDD test scenarios using Gherkin syntax.
 - Integrated TestNG + Maven for execution and reporting.

EDUCATION

- **TECHNOCRATS INSTITUTE OF TECHNOLOGY BHOPAL (M.P.)** **AUG 2019 - MAY 2023**
Bachelor of Technology (CSE)
Courses: Operating Systems, Data Structures, Analysis Of Algorithms, Computer Networking, Database And Management System.

WORK EXPERIENCE

- **TESTENGINEER** **AUG 2023 - PRESENT**
HAPPIEST MINDS TECHNOLOGIES
 - Analyzed requirements and user stories in Agile environment.
 - Collaborated with developers and business analysts.
 - Execution of tests and preparation of test summary reports.
