

Vishal Sheoran

7737776627 @ vishalsheoran.official@gmail.com

Summary

Experienced Android Engineer (5 Years) with a strong track record of delivering scalable, high-performance apps for 100M+ users. Specialized in Kotlin, MVVM, Modularization, CI/CD, and App Performance Optimization

Experience

Games24x7 March 2022 - Present
SDE-2 Android Bengaluru

- Optimized app performance by reducing My11Circle APK size by 60% (62MB → 24MB) and RummyCircle APK size by 30%, improving download speed, install rates, and retention.
- Developed a scalable UI layer with **Kotlin** and **Jetpack Compose** that runs reliably in online and offline modes, enhancing engagement.
- Architected a multi-modular system with dynamic feature modules, enabling on-demand downloads and reducing initial APK footprint.
- Developed a custom notification system with countdown timers that runs reliably in background threads and even in killed state, enhancing user engagement.
- Improved cold and warm startup times by implementing baseline profiles, significantly boosting user experience.
- Drove engineering excellence by achieving 80%+ unit test coverage, enforcing PR review processes, and maintaining long-term code quality.
- Automated CI/CD pipelines for APKs and feature modules, reducing build times and accelerating release cycles.
- Achieved 99.7% crash-free rate across 100M+ active users, ensuring stable, high-quality user experience at scale.
- Partnered with Unity, React Native, and Cocos teams to integrate cross-platform features and resolve performance bottlenecks.

SuperZop June 2020 - March 2022
Senior Android Developer Bengaluru

- Built apps from scratch (SuperDisha, SuperGRT, Supplier App) with features like Payment SDK integration.
- Revamped SuperZop App with MVVM architecture, improving stability and scalability.

SuperZop Dec 2019 - June 2020
Android Intern Bengaluru

Contributed to early SuperZop app development, gaining practical hands-on experience in Android architecture.

Education

BITS Pilani 2024-Present
Artificial Intelligence Master of Technology (Online)

<https://www.bits-pilani.ac.in>

BK Birla Institute of Technology and Science 2016-2020
Computer Science Bachelor of Technology

Skills

Languages & Tools

Kotlin, Java, Python, Coroutines, Firebase, REST APIs, WebSockets

Android Technologies

HILT, Flows, Jetpack Components, Multithreading, Memory Management, WorkManagers

Architecture

MVVM, Clean Architecture, Multi-Modular, Dynamic Feature Modules, MVP

Performance

Baseline Profiles, Startup Optimization, Crash Reduction, CI/CD

Testing & Quality

Instrumented Testing, Code Reviews, Unit Testing

Cross-Platform

iOS, React-Native

Interests

Swimming

Cricket

Foosball

Achievements

- Scaled RummyCircle & My11Circle apps to handle 1M+ concurrent users with 99.7% crash-free rate.
- Reduced app sizes by 30–60%, improving adoption and retention.
- Achieved 80%+ unit test coverage, ensuring stability and maintainability.
- Delivered high-impact features with automated CI/CD pipelines.
