

Experience

Amazon Development Centre
Software Development Engineer 2

Bangalore
Feb 2020 – July 2024

Amazon Pay Global Payments

- Worked with Partner Experience team to handle the merchant onboarding and compliance experience for US, EU and JP marketplace using Java, AWS, Micro-service, Git etc.
- Designed and developed the merchant registration pipeline to provide a smooth merchant onboarding experience and mapped the data to rightful data custodian.
- Designed and developed a US Marketplace KYC compliance system for merchant onboarding.
- Designed and developed a system to automate periodic sanction screening and AUP validations on merchant websites.
- Migrated the services hosted on PROD/CORP network to NAWS platform (host on AWS Services).
- Designed and developed a precomputed solution that reduces API-based merchant onboarding time by 60%.

Amazon Pay In-Payments

- Worked with UPI team to provide Amazon's UPI Payment option in Indian Market.
- Designed and developed Amazon's phone number based UPI payment option to send money, driving a 30-40% increase in UPI transactions.
- Designed and developed "Recent FASTag Recharge" widget, enhancing user experience by displaying past recharges and enabling single-click recharge, streamlining the recharge process.
