

Vinayaka P D

React Native Developer | Senior Software Engineer | Mobile Application Developer
vinaypd37@gmail.com | [+91 - 7795953280](tel:+91-7795953280) | [LinkedIn](#) | [GitHub](#)

Summary

Passionate React Native Developer with **4 years of experience** in building **scalable, high-performance mobile applications**. Expertise in React Native, JavaScript, TypeScript, Node.js, Firebase, and API integrations. Successfully deployed apps with **1M+ users** and integrated features like **payment gateways, analytics, and push notifications**. Seeking a remote role to build world-class mobile applications for a global audience.

Skills

- **Front-End Development:** React Native, React Js, Redux, Zustand, JavaScript, TypeScript
 - **API & Mobile Integration:** RESTful APIs, GraphQL, WebSockets, Axios, Fetch API, Push Notifications, Deep Linking, Payment Gateway Integration
 - **Tools & Platforms:** Visual Studio Code , Android Studio , Xcode , Github , GitLab , BitBucket, Play Console, Apple App Store Connect, AI-assisted tooling (Copilot, Cursor), React Dev Tools, Flipper, Reactotron.
 - **Soft Skills:** Critical Thinking, Debugging, Analytical Skills, Adaptability, Continuous Learning
-

Experience

Front-End Mobile Application Developer | SurgeMindAi LLC

June 2025 - September 2025

StatKing – Android – [StatKing Play Store link](#) & IOS – [StatKing App Store link](#)

- Developed and optimized a cross-platform gaming app, **StatKing**, using React Native, GraphQL, and WebSockets to enable seamless real-time multiplayer functionality.
- Enhanced app performance by reducing load times, memory footprint, and improving rendering, which led to a **40%** more smoother app experience.
- Developed custom UI components and animations to deliver engaging, high-quality user experiences.
- Improved stability and scalability by debugging critical issues, optimizing API/WebSocket communication, and mentoring junior developers.

Senior Software Engineer | Tatvartha Health Pvt. Ltd. (Traya)

June 2023 - April 2025

Traya – Android – [Traya Play Store link](#) & IOS – [Traya App Store link](#)

- Managed and developed three applications:
Traya (consumer-facing with over **70,000** DAU and **1,000,000** MAU), **Starfleet** (internal CRM), and **Doctors** (internal app for consultations).
- Integrated APIs and third-party SDKs with front-end UI.
- Integrated Payment Gateways, Chat, Performance monitoring, Analytics, Firebase Push Notifications, and Deep/Dynamic links.
- Efficiently debugged with Flipper, Reactotron, and Dev Tools.
- Generated and deployed builds to both the Play Store and App Store.

Software Engineer | ValueFloat Technologies Pvt. Ltd. (Floatr)

November 2021 - May 2023

Floatr – Android – [Floatr Play Store link](#) & IOS – [Floatr App Store link](#)

- Built pixel-perfect UIs across both Android and iOS platforms for the **Floatr** app.
- Developed APIs, designed an appropriate database structure and integrated them with the UI.
- Collaborated in a small team including other React Native developers, designers, QA experts, and managers.
- Converted **75%** of Class-based code to Functional-based code with React Hooks and Redux.
- Diagnosed and fixed bugs and implemented performance enhancements, resulting in a **15%** improvement in app stability.

Freelance Project

ScaleUp Learning – Android – [ScaleUp Play Store link](#) & IOS – [ScaleUp App Store link](#)

- Built a social-media-style learning platform using React Native.
- Features include: User Authentication (Signup, Login, Logout, My Profile), Social Features (Follow/Unfollow, Like/Unlike posts, Comments), and Content Management (Create, View, Edit, and Delete Posts).
- **Engineered** an interactive learning platform that includes real-time quizzes with instant feedback and collaborative study groups using **WebSockets** for seamless communication.

Education

B.E. in Electronics and Communication Engineering (2021)

STJ Institute of Technology, Ranebennur, VTU - 7.1 CGPA
