PROFESSIONAL EXPERIENCE

IG Infotech

Bengaluru, India

Software Engineer

2022-Present

- Led the end-to-end design and development of a high-performance service for tax bucket reconciliation and residency changes, effectively mentoring and guiding 3 junior developers. This involved seamlessly integrating Kafka, Redis, Postgres, internal APIs, and the Tax Library to ensure flawless data accuracy and real-time updates.
- Optimized system performance by reducing API response time and batch processing latency by 30%. Achieved this through strategic tuning of the executor service and architectural improvements, resulting in more efficient resource utilization and faster processing, all while ensuring 100% accuracy in data updates.
- Designed and maintained a microservices architecture using Spring Boot, increasing system scalability by 40%.
- Built interactive reports using Jasper Reports, boosting client insights by 25%.
- Enhanced Kafka-based real-time data processing, achieving a 40% latency reduction.
- Automated daily reconciliation processes with a scheduler and integrated email summaries to stakeholders, enhancing operational efficiency and communication.
- Designed and implemented a robust service to integrate commission details into settlement instructions, ensuring seamless operations during CGM outages across 100% of markets.

Hewlett Packard Enterprise

Bengaluru, India

Software Engineer

2021-2022

- Optimized Elasticsearch indexing and query strategies, improving search accuracy by 25% and reducing query execution time by 40%.
- Managed Linux server environments, improving server performance by 30% through optimized deployments and performance enhancements.
- Contributed to production issue resolution, improving client satisfaction by 20% by ensuring minimal downtime and quick issue resolution.

Housejoy

Bengaluru, India

Software Engineer

2020-2021

- Enhanced testing efficiency by 30% through the implementation of automated testing frameworks, leveraging multithreading to optimize execution time and resource utilization
- Spearheaded third-party API integrations, enhancing platform functionality by 25%.
- Delivered the Customer Management microservice, improving data management efficiency by 30%.

EDUCATION

RGPV UNIVERSITY

Indore, India

Bachelor of Technology (B.Tech) with Honors; Major in computer science

2015-2019

- Indore Institute of Science and Technology

ADDITIONAL INFORMATION

- **Programming Languages:** Core Java
- **Frameworks & Libraries:** Spring Boot, Spring Data, Spring Security, Hibernate, JPA, Microservices, Selenium, JUnit, Spring Batch
- **Databases:** MySQL, Redis, NoSQL, Elasticsearch, Oracle, Postgres
- **Messaging Systems:** Kafka
- **Web Services:** RESTful APIs, SOAP, JSON, XML
- **Tools & Technologies:** GitLab, Jenkins, Docker, Nomad, CI/CD, Maven, Kubernetes, Git, STS, IntelliJ
- **Operating Systems:** macOS, Linux, Windows

- **Other Skills:** Data Structures & Algorithms, Design Patterns, SDLC
- **Awards Spotlight Winner** Recognized for outstanding contributions to critical projects.
