WORK EXPERIENCE

Concentrix, Gurugram(Remote) — Sr. Software Engineer

Nov 2021 - June 2024

Technologies: MongoDB, Express, React, React-Hook, Node, Git, Jira, Gitlab, Agile, Microservices, Socket.io, GCP, Docker, Kubernetes, Kafka & CI/CD.

- I'm currently working on the ConnectCX project as a Senior MERN Full Stack Developer.
- I have been part of the core team to develop features as per the business requirement like real time chat etc features.
- I design, develop Restful API using Microservices architecture.
- I was working a lot on the performance related issues of Microservices & UI Components to enhance the performance of the applications.

Equinix & Source IT Solutions, Delhi(Remote) — Sr. Full Stack Developer

Aug 2020 - Nov 2021

Technologies: MongoDB, Express, React, Node, Nest.JS, Redis, Mapbox, Git, Jira, Agile, Microservices, RestFull API etc.

- I have been a part of the Equimap project for a cloud data center, involved in selling cages and cabinets through a web platform. I truly enjoy contributing to this project from scratch.
- I developed a 2d/3d model on the Mapbox using reusable components of React and developed some of the microservices with the Nest.js framework.

Paxcom, Delhi — Sr. Full Stack Developer

Dec 2017 - Aug 2020

Technologies: MongoDB, Express, Angular, Node, AWS, Redis, Git, Gitlab, Jira, Agile, Microservices, MVC, RestFull API, Reusable Component.

- I worked as a Full Stack Engineer at Paxcom for around 3yrs, where I had the opportunity to contribute to various projects and collaborate with cross-functional teams.
- One of my notable achievements was leading a team in the successful development and deployment of Save Food Share Food & Vodafone scholarship projects.

AP Techpins, Gurugram — Full Stack Developer

Nov 2016 - Dec 2017

Technologies: MongoDB, Express, Angular.JS, Node, Require.js, Agile, Git, Jira, MVC, RestFull API, Reusable Component.

- Using Angular-JS and Require-JS i migrated their application to modern single page application with modular pattern.
- I enhance their Ed-tech Platform using Angular-JS on the front-end and develop multiple modules with best practices.

SKILLS

Technical Skills:

- **Languages/Concepts:**
Javascript, Typescript, OOPs, Algorithms, Data Structure, Agile, CI/CD.
- **Design Patterns:**
MVC, Monolithic, Microservice, RestFull API.
- **Servers/Cloud:**
Node.JS, Nest.js, Express.js, GCP, AWS, Websockets.
- **Databases:**
Mongo-DB, MySQL, NoSQL.
- **UI Frameworks:**
Angular, React, React Hooks, Redux, Material UI, ANTD Design, Bootstrap, HTML5, CSS
- **Unit Testing:** Jest.js

Tools:

- MERN, MEAN, Docker, Kubernete, GIT, JIRA, Grafana, Prometheus, Mapbox, Kafka, Socket.io.

EDUCATION

IGNOU, Delhi — BCA
(Graduate), Jul 2011 - Dec 2015

Clayplay, Gurugram — Intern *Full Stack Developer*

July 2016 - Oct 2016

Technologies: MongoDB, Express, React, Node, MVC, RestFull API, GIT & JIRA.

- I was working on the online platform for Tour & Travel agency. We create a platform to book Travel packages combining (Flight, Hotel, Cab and other activities).

UTS, Gurugram — Intern *Full Stack Developer*

Jan 2016 - Jun 2016

Technologies: MongoDB, Express, Angular, Node, MVC, Git & Github.

- I learned MEAN Stack and worked on the live project of an online exam test.

PROJECTS

Title: ConnectCX

Team Size: 12

Technologies: MongoDB, Express, React, Node, Agile, Microservices, React Hooks, Socket.io, GCP, Docker, kubernetes, Kafka & CI/CD.

Roles & Responsibility:

- Designed and developed many modules/features of this project, such as real-time chat.
- Performance tuning of microservices and UI components.
- Designed the right architecture for Microservices and React Modules, also addressed security concerns of the project.
- I was also involved with the Devops Team to work on the deployment process on GCP using Docker image, kubernetes and Nginx Ingress configuration for Microservices and UI code.
- I have used GCP kubernetes cluster, VM, API-services, cloud storage and GCP SDK for Javascript & Node-JS in this project.

Title: Equimap

Team Size: 10

Technologies: MongoDB, Express, React, Node, NestJS, Redis, Mapbox, Agile, Microservices, RestFull API etc.

Roles & Responsibility:

- Developed 2D and 3D models on Mapbox using React and NestJS.
- I'm involved in the design and development of this application's features and requirements.
- I worked on the Performance and Architecture design of Microservices & RestFul API.
- Using React-Hooks and Function Components we develop our front-end with reusable component architecture design.

Title: Save Food Share Food

Team Size: 10

Technologies: MongoDB, Express, Angular, Node, AWS, Redis, Agile, Microservices, RestFull API, Reusable Component.

Roles & Responsibility:

- Developed the end-to-end flow for donating food from scratch.
- Implemented a custom notification system for this app to notify agencies for food pickups.
- Served food to thousands of needy people in the Delhi NCR area.
- We used AWS cloud to deploy our web-app through CI/CD pipeline process.

Awards | Certificates

- MEAN Stack Certificate
- Software Diploma

LANGUAGES | Hobbies

Languages:

- English
- Hindi (Native)

Hobbies:

- Sports
- Driving
- Traveling
- Music
- Adventure
