Skills

Languages: Java, Kotlin, SQL, Data Structures and Algorithms

Technologies & Tools: SpringBoot, Microservices, S3, Elasticsearch, SQL, Kubernetes, Docker, Kafka, Spring, NoSql, Gradle, Maven, Rest, Caching, System Design

Work Experience

Qualys, Pune

January 2020 - Present

Senior Software Engineer

- Developed and maintained a Policy Compliance product for Qualys using Java and Spring Boot, enhancing system efficiency and reliability.
- Achieved a significant reduction in search times to milliseconds within a large database by integrating Elasticsearch, greatly improving data retrieval performance.
- Design and developed the Policy Compliance reporting microservice from scratch, improving reporting time by 10x compared to the existing monolithic architecture.
- Improved application performance by integrating Redis cache to store frequently accessed data, reducing database query load and decreasing response time by 60%.
- Implemented Prometheus Monitoring for performance tracking and system health checks.
- Integrated critical tools like Vault, Consul, and Kibana for security, configuration management, and log analysis, while using Kubernetes Helm charts for development deployment.
- Java, SpringBoot, Microservices, ElasticSearch, S3, SQL, Caching, Kafka, Docker, Kubernetes

Tata Consultancy Services, Pune

Aug 2015 - Dec 2019

System Engineer

- Worked as an Android Developer for Barclays Bank client using Core Java, enhancing mobile application functionality.
- Implemented best practices in coding standards, conducted unit/integration testing, and ensured high-quality code through code reviews.
- Collaborated directly with clients for requirement gathering, ensuring alignment with business needs and technical feasibility.
- Debugged and resolved production issues, providing patches and timely fixes to maintain application stability.
- Integrated 3rd-party libraries and APIs to improve app features and performance.
- Core Java, Multi-threading, Android, SQLite, Dagger

Education

Government college of Engineering, Aurangabad

Aug 2011 - Jun 2015

B.E. in Computer Science and Engineering

CGPA - 7.52/10

Relevant Coursework: Object Oriented Programming, Databases, Java, Data Structures and Algorithms, Operating Systems, Computer Networks, C++, Assembly Language

Vivekanand College, Aurangabad

Aug 2009 - Jun 2011

12th Science, HSC state board

Marks - 74%

Dnyan Prakash Vidya Mandir, Aurangabad

June 2008 - May 2009

10th, SSC state board

Marks - 86%

Awards and Certificates

- **DBS Hackthon:** Reached the final round of the prestigious DBS Hackathon Hyderabad, competing against top innovators to develop. Demonstrated strong problem-solving, collaboration, and technical skills
- **Capgemini Tech challenge:** Final round at Mumbai. Develop the android app to find out the duplicate images in mobile phone.
- **TCS internal coding competition:** Achieved 3rd rank in a highly competitive internal coding competition at TCS, showcasing strong programming skills, algorithmic problem-solving, and the ability to work under time constraints.
