

Education

B.E IN COMPUTER SCIENCE

R.V.C.E BANGALORE

📅 Graduated in 2020

CHETAN P.U COLLEGE

HSC (XII)

📅 2016

📍 Hubli, India

Skills

FRONTEND

- Javascript
- Typescript
- Angular
- React JS
- AG-Grid
- Jasmine
- HTML/CSS

BACKEND

- Java
- Spring Boot
- Node.js

MACHINE LEARNING

- TensorFlow
- Sklearn
- OpenCV

Certifications

- Machine Learning Specialization course by Andrew Ng
- Full Stack Web Development with Angular course by Hong Kong University of Science and Technology
- Javascript Specialization course by UC Davis

Publications

Published a paper titled '**Analysis of Front-end Frameworks for Web Applications**' in International Research Journal of Engineering and Technology (IRJET)

Experience

FOUNDER / SOFTWARE ENGINEER

STARTUP in collaboration with Government of Karnataka STARTUP Cell

SMART SOLUTIONS - SMART CART

📅 Aug 2023 – Present

📍 Bangalore, India

- **Description** - Developed 'Smart Cart', a product that helps users to self-checkout from shopping centers by eliminating the need of billing counters.
- **Skills Developed**
 - Designed the frontend with **React.js** for the user interface and utilized **Firebase** for backend services, including user authentication and real-time database management.
 - Handled API requests and server-side logic with **Node.js** and **Express**.
 - Developed an ANN using **YOLOv8** to detect objects in shopping carts, optimizing the model to enhance accuracy and reduce latency for seamless real-time recognition.

SOFTWARE ENGINEER

SOCIÉTÉ GÉNÉRALE

📅 Nov 2020 – July 2023

📍 Bangalore, India

Financial Data Analysis Web Application

- Contributed to the development of an internal web application designed to facilitate the **validation and certification of traded PnL data** by analysts.
- The frontend application was built using **Angular**, while the web service was developed using the **Spring Boot framework**.
- Optimized the frontend code by integrating the **RxJS library**, which enabled more efficient handling of asynchronous callbacks.
- Added the new feature for **PnL alerting and Portfolio Management**

PnL Web Service

- Developed APIs for new '**PnL Adjustment**' feature
- Gained skills in web service maintenance, API development, and data integrity/security

PnL Metrics Web Application

- Maintained the legacy codebase of the PnL Metrics web application and migrated the project from **Angular 12.0 to 13.0**.
- Upgraded the **AG-grid** from version 20.2 to 28.1, enabling the use of newer features that are fully typed for Angular, resulting in major improvements across row grouping and **server-side** row model.

Achievements

- Recipient of 'Technical Expertise Award', Société Générale
- Winner of Elevate 2019, organized by the Department of Information Technology and Biotechnology, Government of Karnataka (entrepreneurship platform for Startups)
