SUMMARY

A Software Engineer with over 4.2 years of hands-on experience specializing in **iOS** development. Proficient in Swift, Xcode. Experienced in developing applications with over 3M+ daily active users. I am a curiosity-driven person who is always eager about brain-storming tech solutions involving problems solving skills, also interested in the iOS app development. I am highly proficient in Swift.

EXPERIENCE

Software Engineer (iOS Developer)

August 2022 – Present

One97 Communications Ltd (Paytm)

Noida - Remote

- Developed the revamped Nagad app for the Bangladesh Post Office, integrating features like digital KYC, bill payments, QR payments, and international transfers, significantly reducing customer acquisition and lifecycle time to **1/10th** of the market practice.
- Completed the migration of Ooredoo Maldives, a digital payments app, from Flutter to Swift and UIKit within the challenging **3-month timeframe**, ensuring a smooth transition.
- Implemented advanced cryptographic algorithms, SSL Pinning, AES key rotation, checksum validation, and other security measures to fortify app security and protect user data integrity.
- Integrated analytics SDKs like CleverTap and Netcore, enabling businesses to analyze customer engagement, personalize marketing, and enhance app performance with detailed analytics and targeted campaigns.

Software Engineer (iOS Developer)

Apr 2022 – July 2022

Fidoo

Gurugram

- Revamped the search functionality for food and restaurant, resulting in a notable 40% reduction in user search time.
- Made enhancements in the Cart page which increases the user experience.
- Integrated the Outstanding payment feature in the Cart page which helps users to make payment of their outstanding amount if any.

Software Engineer (iOS Developer)

May 2020 – Mar 2022

Webkul Software Pvt Ltd.

Noida

- Made enhancements in the Demo CS Cart demo application and added configurable product features in [Magento demo application](#). Minimized the lines of code in CS - Cart Vendor application from 600 to 200.
- Revitalized the CS-Cart Mobile application and [CS-Cart Multivendor app](#) by integrating a Wallet feature and enhancing the design, resulting in a remarkable 30% surge in application sales.
- Received the **Special Achievement Award** and the **Best Team Award** for outstanding performance and fostering collaborative success within the team.

PROJECTS

MoviesDBApp | iOS, Swift, UIKit, MVVM, REST APIs

- An iOS app with the collection of movies from gathered from The Movie DB (TMDB).

Weather App | iOS, Swift, UIKit, MVVM, REST APIs

- A mobile app for iOS devices which shows weather info of cities from AccuWeather APIs.

TECHNICAL SKILLS

Data Structures and Algorithms: [Geeksforgeeks](#), [Leetcode](#)

Languages: Swift, C++, JavaScript

Databases: CoreData/MySQL, Firebase

Mobile & Web Development: iOS, UIKit, SwiftUI, Flutter, HTML/CSS, NodeJS, ReactJS

Developer Tools: Xcode, Xcode Cloud, Git, Docker, Google Cloud, Jira

EDUCATION

Bharat Institute of Technology, Meerut

Meerut

Bachelor of Engineering in Computer Science | Result - 7.5/10 CGPA

July 2016 – May 2020

ACHIEVEMENTS

Winner - Smart India Hackathon 2020 | Python, Flask, JavaScript, MySQL, Google Cloud

August 2020

- Proposed an automated waste collection solution using drones to classify waste images and notify authorities with GPS locations. Recognized as the winner among over 1 lakh students.
