Technical Lead, HCL – ERS, ABB UL Tool and RAISE-Remote Assistance Product, Cat® Product Link™ Fleet and Asset Management, HCL Technologies Ltd, Bangalore, IN

Jan 2014 – April 2016

- **ABB Raise Motor Product & Caterpillar Machinery Telematics:** Worked as Java Development Lead and Followed Agile methodologies. Led 8 member of team to work on the development effort and empower them to get client satisfaction on their deliverables.
- **Tech stack used:** Java 8, Angular JS Spring XD, Spring Boot 1.5, Tomcat, Apache Spark, Apache Kafka, Cloudera Manager, Apache HBase, Oracle 12c, PostgreSQL, RabbitMQ, Redis Cache, Azure PaaS Cloud, Swagger API, API Connect, SOA Architecture and Microservices Architecture

Software Developer, Percipia : Hospitality Integration Platform,

Propitia Software Solutions Pvt Ltd, Chennai, IN

June 2012– Dec 2013

• Percipia Transient Communication Engine Product

Technology:

I have worked here as Java Developer for Hospitality domain software product and networked with US business leads.

Tech stack used: Java 6, JavaScript, Struts 1.3, Spring 4, JMS, MySQL, JBOSS Server, SOA Architecture and Monolithic with VPN with on-prem model.

Software Engineer, Chennai Ecommerce Portal Development, Information Technology

Mindbridges Technologies, Chennai, IN

June 2009– June 2012

• Ecommerce portal – Chennai hypermarket Online:

Worked as android and java web developer and worked on data management, data integration and testing need.

Tech stack used: Android, Java 6, JavaScript, Struts 2, Spring 4, Hibernate 4, JMS, MySQL, Tomcat, Rackspace Cloud,

LIFE PHILOSOPHY

“What we think we became”

Certification

- **SQL Database**–MySQL, MS SQL, Oracle 12c, PostgreSQL, Aurora, Mainframe DB2 etc.
- **NoSQL Database and Big data**–MongoDB, Cosmos DB, Cassandra, Apache HBase, DynamoDB Cloudera, Apache Hadoop, Hive
- **Framework and Emerging Technologies** – Spring Framework 5.x, Spring Boot 2.x and 3.x, Hibernate ORM, Augmented Reality for Guided Instruction. Pega and Azure Chatbot Framework for Q & A, support channel interface and AI based services – Gemini Code Assist and etc.
- **Scripting language**–JavaScript, React JS, Angular JS and Angular
- **Integration Layer**–REST API, RabbitMQ Messaging, Kafka Messaging, IOT hub, Azure Event Hub, SFTP, JMS, IBM MQ, ActiveMQ,
- **Security Mechanism**–Java Cryptography, RSA, Digital Signatures, SonarQube, Fortify, Black duck, OAuth 2, IAM, Azure AD B2B and B2C
- **Software Product Development Approach and Environment**– Used Domain Driven Design (DDD), Test Driven Development (TDD), API Driven Development Approaches. IDE used Eclipse IDE, IntelliJ IDE, Jupiter notebook
Backend Activities and CRM–DBMS Job Scheduling, Alerts and Notifications for reports, SAP CRM, Salesforce
- **Version Control and Build**–SVN, Bitbucket, GitHub, GitLab, Azure DevOps and Ant, Maven, Gradle
- **Web / Application Server**–Jetty, Tomcat, JBOSS, WAS, Liberty
- **Web Technologies**– HTML 5, JavaScript, Angular and React JS
- **Non-Functional requirements** – Performance, Security, Availability, Reliability, Recoverability, Scalability, Maintainability, Serviceability etc.

My Skills

- **Leadership, People Management and soft skills**–Problem solving, Solution oriented, Technology visionary, Adaptive & People leadership, Coach team with excellent communication skills and provide decision-making support
- **Project management and Software Development Methodologies**–Project planning and Delivery management, Agile Methodologies – Scrum and Kanban, Waterfall, Hybrid and etc. product management & technical leadership
- **Product Management Tools, BI and Data science Tools**– Design Thinking approach, Product Feature management (EPIC, Sub EPIC, User story) Atlassian Jira, Azure DevOps, QlikView, Tableau, Looker, Qlik Sense
- **Technical Architecture and Engineering Management**–SOA, Monolithic, layered (2,3 tier) Microservices, Event Driven, Serverless and Code Quality standard governance and control
- **Programming Language**–Java 21, Android (Mobile Apps), Python (Jupyter Notebook)
- **Cloud**–Azure Cloud (4 years), AWS Cloud (3 years), GCP Cloud (1 year)
- **API Gateway**–IBM API Connect and GCP APIGEE X, Azure API Management
