PROFESSIONAL SUMMARY

Innovative and results-driven software developer with **9.5 years of experience** specializing in iOS application development. Passionate about creating user-centric applications with intuitive and engaging interfaces. Committed to writing clean, maintainable, and efficient code. Continuously learning and adapting to new technologies to stay ahead in the fast-evolving tech landscape.

SKILLS

- **Technical Skills:** Swift, SwiftUI, Objective-C, Combine, UIKit
- **Design Pattern:** MVC, MVP, MVVM, Coordinator
- **Development Tools:** Xcode, Instruments, GitHub Desktop, Proxyman, Charles Proxy, Postman
- **Other Skills:** Firebase, Analytics, Circle CI/CD, Clean Architecture(SOLID), React-Native (Basic), JIRA, Agile, Scrum, Confluence, Rally Dev, Figma, Zeplin, InVision, Sketch, Swift Package Manager (SPM), Unit Testing, Restful APIs, RazorPay SDK, App Store Submission.

WORK EXPERIENCE

Emids Technologies Pvt Ltd

Senior Software Engineer

Sep 2022 - Present

- Implemented Identity Proofing in Login and Registration modules, enhancing security through OTP-based authentication and preventing unauthorized access.
- Redesigned the TVT Module with a complete UI/UX overhaul, improving usability and visual consistency across the ActiveHealth Mobile app.
- Developed Checkout and Edit Shipping functionality within the Rewards module, enabling smoother e-commerce experiences and user retention.
- Integrated the Mental Health feature using the SwiftUI tech stack, introducing a modern UI experience and expanding the app's wellness offerings.
- Resolved legacy issues and reduced crash rates, resulting in significant improvements in app stability, responsiveness, and performance.

MyHealthcare Technologies Pvt Ltd

Senior Software Engineer

Mar 2018 - Aug 2022

- Designed and developed the MHDoctor app, enabling doctors to manage Physical and Virtual OPD consultations, Electronic Medical Records (EMR), calendar scheduling (leave and slot booking), and printable consultation summaries.
- Integrated virtual consultation features, including secure video and audio calling for patient interaction.
- Implemented reports and checkout functionality in the MHPatient app, improving patient access to medical records and billing workflows.
- Diagnosed and resolved bugs, significantly enhancing app stability and overall performance.

DigiCollect India Pvt Ltd

Software Engineer

Jun 2017 - Feb 2018

- Designed and developed a dynamic Forms app, capable of generating multi-page, customizable input forms based on configuration.
- Implemented offline data persistence using Realm DB, allowing users to save and edit forms for later submission without internet connectivity.
- Optimized performance for large, complex form structures, ensuring smooth navigation and responsiveness across multi-page input flows.

Robosoft Technologies Pvt Ltd

Software Engineer

Nov 2015 - May 2017

- Contributed to feature enhancements and bug fixes in the NDTV app, improving app reliability and user experience. Utilized Objective-C as the core technology stack.
