SUMMARY

Experienced **Senior Software Engineer with 3.5 years of expertise** in designing and building scalable microservices using Golang, Node.js, AWS, and modern databases. Proven track record in optimizing performance, reducing costs, and delivering high-quality solutions. Skilled in collaborating with cross-functional teams to build efficient, maintainable systems and drive innovation.

TECHNICAL SKILLS

Languages and Frameworks: Golang, Node.js, PHP, Java

Databases: MySQL, MongoDB, Clickhouse, ElasticSearch

Cloud Platform: AWS (S3, Lambda, CloudWatch, SQS, API Gateway, LoadBalancer)

Tools and Technologies: Redis, RabbitMQ, Git, GitHub, REST APIs, Postman, Docker, NewRelic

EXPERIENCE

Senior Software Engineer

Kasplo - CPaaS Email Marketing

November 2023 - present

Bangalore, India

- **Engineered an email marketing platform from the ground up** using a microservice architecture in Golang and integrated it with **Shopify**, enabling seamless campaign management and **supporting the delivery of 20-50 million emails per day**.
- Optimized email delivery performance by decoupling processes, optimizing queries, and implementing caching mechanisms, **reducing the delivery time for 100,000 emails from 15–20 minutes to under 2 minutes—an 85% improvement in efficiency**.
- Implemented **real-time email campaign analytics**, generating detailed reports and actionable insights, **reducing analysis time by 50%** and enabling data-driven optimizations to improve engagement metrics.
- Developed a high-performance contact upload feature, **processing 1–1.5 million records in under 5 minutes** by implementing **data chunking/streaming**.
- Developed **secure authentication mechanisms and a scalable billing system** with prepaid and postpaid options, **streamlining user access for over 500 users**.
- Seamlessly **migrated 15+ clients** to an in-house email platform with **zero downtime**.
- Provided ongoing support for production issues, troubleshooting and resolving high-priority bugs, achieving a **97% issue resolution rate within SLA timelines and contributing to a 40% improvement** in platform stability and client satisfaction.

Software Engineering Specialist

Kaleyra - Omnichannel CPaaS providing SMS, WhatsApp, Voice

August 2023 - November 2023

Bangalore, India

- Redesigned and optimized a critical WhatsApp Billing microservice by archiving historical data to S3, **reducing database load by 30% and improving system efficiency**.

Associate Software Engineer

Kaleyra - Omnichannel CPaaS providing SMS, WhatsApp, Voice

August 2021 - July 2023

Bangalore, India

- Integrated and leveraged multiple **Meta/WhatsApp APIs** into our system, enhancing key features like WhatsApp Templates and Webhooks for clients, and **achieving an average API response time of ~3ms**, significantly improving system performance and client efficiency.
- Developed the WhatsApp Embedded Signup project, **reducing client onboarding time from 2–5 days to under 10 minutes** by automating processes, eliminating manual intervention, and improving customer and BSP experience and visibility.
- Contributed to the integration of **Meta's Cloud API for WhatsApp Business**, replacing self-hosted servers and Docker environments, which **resulted in a 30% reduction in server costs for Kaleyra**.
- Managed escalations for premium clients, including **Shippo, Alshaya, and Curefit**, achieving a **98% reduction in production incidents and enhancing customer satisfaction**.
- Served as a **primary point of contact for WhatsApp integrations**, collaborating with teams such as Chatbot, Plugins, and Fail-over to translate user feedback into impactful solutions and enhancements.

ACHIEVEMENTS

- Special Recognition Award - Awarded for outstanding contributions to the Cloud-API project for the WhatsApp team at Kaleyra. Our team also received the '**Cloud API Partner of the Year**' award at the Conversations event hosted by **META**.

EDUCATION

Dayananda Sagar College of Engineering

B.E — Information Science and Engineering — 9.43/10

Bangalore, India

2017 - 2021

Chethana PU College (Deeksha Integrated)

Pre-university— Physics, Chemistry, Maths, Computer Science — 92.8%

Bangalore, India

2015 - 2017

Presidency School (ICSE board)

Matriculation — 95%
