PROFESSIONAL SUMMARY

Automation Engineer with 3 years of experience in Cypress, Selenium using JavaScript and Python. Skilled in performance, API, database, and penetration testing. Proficient in Agile methodologies, JIRA, GIT, Docker, AWS and CI / CD pipelines, ensuring efficient and high quality software delivery.

TECHNICAL SKILLS

Operating Systems : Linux (Ubuntu), Windows Server
Scripting & Programming : Python, Javascript, SQL
Containerization & Orchestration : Docker, Kubernetes
CI/CD : Jenkins, GitLab CI
Cloud Platform : AWS (EC2,EKS,ECS,S3,RDS,VPC,ELB,CLOUDWATCH,ROUTE53)
Frameworks : Cypress , Selenium, Pytest
Collaboration Tools : JIRA, Confluence, Slack
Performance Testing : Jmeter , Loadrunner
Security Testing : OWASP ZAP , SonarQube

EXPERIENCE

Automation Engineer | Okshan Motors

Feb 2024 –Present

- Built and implemented front-end and back-end automation frameworks using Cypress, achieving **95% test coverage** across critical functions, leading to a **50% reduction** in manual testing efforts.
- Improved test execution speed by **40% efficient** scripting and test suite optimization, enabling faster release cycles and significantly reducing delays.
- Designed and integrated CI/CD test pipelines, embedding automated tests within the build process, leading to a **30% reduction** in manual intervention and enhancing continuous deployment reliability.
- Collaborated with development teams to optimize application performance and reduce latency, resulting in a **15% improvement** in response times.
- Streamlined testing strategies by aligning QA processes with Agile principles, conducting regular sprint reviews, and refining test cases to meet evolving project requirements.

Quality Analyst | Bridge2i Analytics Solutions pvt. limited

July 2020 – April 2022

- Conducted partial automation testing using Selenium, creating automated test scripts for regression and smoke testing, resulting in a **25% reduction** in manual testing efforts
- Implemented CI/CD pipelines, resulting in a **15% reduction** in deployment time and a **20% increase** in release frequency
- Effectively utilized JIRA for task management, sprint planning, and tracking defects, ensuring transparent communication and alignment within the Agile team.
- Collaborated with QA engineers to define test automation strategies and integrated automated tests into the CI/CD pipeline for continuous validation of application functionality.
- Streamlined release management processes, resulting in a **20% reduction** in deployment failures and a **25% decrease** in rollback incident.
- Conducted capacity planning and performance tuning for cloud-based environments, leading to a **20% improvement** in resource utilization and cost efficiency.

Awards & Recognition

- Received **Customer Appreciation Award** in recognition to the outstanding performance and contribution.
- Received **Bravo Award** for self-learning functions, customer process tools and training new team members.

CERTIFICATIONS

Learn Python Programming - Beginning to Master
Cypress Automation - Zero to hero

Issued: Dec 2024
Issued: Dec 2022

EDUCATION

Bharati Vidyapeeth College Of Engineering, Pune
B.Tech Electronics & Telecommunications

July 2016 – June 2020

Bharati Vidyapeeth College Of Engineering, Pune
Diploma in Network Security

June 2016 – July 2019
