EXPERIENCE

Infra.Market

Bengaluru, India - Onsite

Software Engineer - II

04/2024 - Current

- Built **Rule Engine (GRule)** microservice to manage **10,000+ Rules**, utilizing an **in-memory knowledge base** to reduce matching time from **~10 seconds to ~20ms** for downstream services, significantly enhancing rule processing.
- Led end-to-end design, development, and deployment of **Loyalty** and **Payout** services as **Module Owner**, ensuring high scalability, system reliability, and uptime.

Software Engineer - I

07/2023 - 04/2024

- Built and scaled **Loyalty Service** for **Shalimar Paints (800K+ users)**, enabling users to scan product **QR codes** to earn loyalty points via rule-engine-based reward calculation, credited and redeemable for real money.
- Developed **Payout Service** integrated with **Cashfree** to automate payments and trigger instant redemptions, facilitating over **600K redemptions** to date across downstream services.
- Implemented **JWT-based Access Control** and **Role-Based Authorization layer (IM-Authz)**, securing APIs across Infra.Market's ecosystem for over **50+ services**.
- Built library implementing the **Kafka Outbox Pattern** for **atomic event writes** and **reliability**; adopted across **10+ microservices** for fault-tolerant asynchronous communication.

Software Engineer - Intern

02/2023 - 07/2023

- Built **New Relic dashboards** for **real-time monitoring** of service health including p99 latency, error rates, and throughput across pods; set up APM traces and service maps for observability.
- Led **feature development**, **data migrations** and integrated **distributed tracing** to monitor end-to-end request flow and segment-wise latency across microservices.

SKILLS

- **Languages/ Core Concepts:** Golang (GO), Java, C, C++, Python, SQL (PostgreSQL), Data Structures & Algorithms, System Design, Design Patterns
- **Infrastructure/ DevOps:** Apache Kafka, Kubernetes, gRPC, Redis (ElastiCache), Docker, AWS, Jenkins, GoCD, CI/CD, Testify (GO), GORM

ACHIEVEMENTS

- Rated **2027** (top **2.23%**) on LeetCode | [Profile](#)
- Attained **2053 rating (5-Star Coder)** on CodeChef | [Profile](#)
- Earned **Specialist** title with **1545 rating** on CodeForces | [Profile](#)
- Placed **55th Globally** in CodeChef January Cook-Off '22 among 15,912 participants | [RankList](#)
- Ranked **78th Globally** in CodeChef Starters among 17,077 participants | [RankList](#)
- Secured **Global Rank 558** in Google Kickstart Round D among 10,950 participants | [Credentials](#)
- Achieved **Global Rank 192** in LeetCode Biweekly '75 among 16,330 participants | [RankList](#)

EDUCATION

06/2023 B.Tech in CSE at **Jaypee Institute of Information & Technology**, Noida

CGPA: 7.1/10

03/2019 Class 12th CBSE Board at **Jaypee Public School**, Noida

CGPA: 86%
