Summary

- Seasoned leader with over 15 years of expertise in data science, adept at unveiling actionable profit-driven opportunities through meticulous customer analysis and sophisticated statistical insights.
- Recognized for fostering symbiotic alliances with pivotal stakeholders and senior business luminaries. Integral in deploying analytical and machine learning models to amplify portfolio efficacy, segmentation, and retention strategies, cultivating growth.
- Proficient in transmuting intricate data and technical paradigms into comprehensive requirements documents, captivating business cases, and immersive user narratives. Orchestrated and executed multifarious data science endeavors, intricately synchronizing with client specifications and demarcating project scopes. Adroit in presenting innovative solutions to clients and external stakeholders, adeptly navigating inquiries with agility and perspicacity.
- ROI-focused strategist adept at crafting tailored system designs to optimize returns on Machine Learning and AI models. Specializes in scalable implementations to enhance impact and foster sustainable growth.

Skills

SAS, SQL, Python, VBA, Tableau, PySpark, GPT-3, BERT, TensorFlow, PyTorch, Causal ML, YOLO, Airflow, Kubernetes, Flask, AWS, GCP, Azure, Redhat Openshift, PowerBI, SuperSet, MLOps, ETL

Statistical Techniques

Regression, Classification, Recommendation Systems, Fraud Prediction, Risk Underwriting Models, GPT-3, BERT, YOLO, NLP, NLU, Market Mix Modelling, Marketing Spend Optimization, Price Elasticity, Churn & Customer Life Time Value Prediction, Customer Segmentation, A/B Testing, Product Analytics

Domain

FinTech, Credit (Credit Cards and Merchant Lending), Insurance, Healthcare, Consumer Durable Goods, EdTech

Soft Skills

People Management, Stakeholder Management, Presentation and Communication, Coaching and Mentoring

Other Skills

Project Management, MS Office: Excel, Powerpoint, Access, Agile Methods

Experience

- Paypal

Aug'22 - Apr'24

Data Science Manager 2

 - Directed data science initiatives to align with business objectives, optimizing performance through strategic planning and team mentoring.
 - Implemented end-to-end Machine Learning product development across risk, marketing, and operations domains, ensuring compliance and effective management processes.
 - Oversaw credit risk strategies for PayPal Global Merchant Lending's (Business Credit Card and Business Loans) USD 1+ billion portfolio, fostering collaboration for innovative solutions and performance enhancement.
 - Developed Bank statement-based commercial underwriting process, increasing credit eligibility rates by ~10%, potentially elevating originations by USD 100M.
 - Led the development of data extraction and processing systems for bank statements, ensuring data integrity and optimizing performance.
 - Collaborated with business leadership and product platform teams to optimize product efficiency, develop strategic vision, and roadmap for AI and ML products, with a focus on ensuring regulatory compliance."
 - Evaluated new vendors, technologies, and data sources to enhance Data Science functions and mitigate emerging risks proactively.

- Foundation AI

Apr'19 – Feb'22

Director of Analytics

 - Established and led a high-performing Machine Learning and Business Intelligence team, ensuring seamless project delivery across diverse client accounts. Designed, developed, and monetized high-impact machine learning products to drive business outcomes.
 - Collaborated with project, data science, and development teams to shape the technical roadmap and implement innovative data-driven solutions, driving business growth.
 - Drove technical standardization and best practices, architecting and enhancing the scalability of AI Platform engineering to optimize performance and efficiency.
 - Coordinated implementation efforts across development teams, prioritizing system performance, security, and scalability to ensure uninterrupted service delivery.
 - Strategically deployed AI SaaS for prominent US property and casualty insurance firms, resulting in a USD 1.5M revenue increase by digitizing processes and aligning technology solutions with business objectives.
 - Spearheaded a USD 3.25M initiative by establishing and leading an offshore analytics team for a top home appliance manufacturer, delivering solutions aligned with business goals.
 - Identified and implemented initiatives to enhance Business Development and Firm health, resulting in a USD 26.3M increase in sales over four quarters. Played a key role in talent acquisition, mentorship, and effective management of technology budgets.

- Practo

Jun'13 – Mar'19

Manager, Analytics

 - Led a cross-functional team of analysts to spearhead high-impact projects encompassing Advanced Analytics, Business Intelligence, Data Engineering, and Product Analytics, bolstering critical business operations.
 - Contributed as a founding member to the development of Querent, a healthcare-focused advanced analytics SaaS platform, benefiting over 10M patients worldwide with insightful dashboards for providers and pharmaceutical companies.
 - Provided market campaign analysis, resulting in a 10% improvement in user conversion and a 5% increase in retention rate for marketing leaders.
 - Collaborated with product leaders and engineers to drive product analytics initiatives, focusing on user journey mapping, conversion funnel analysis, segmentation, and retention strategies for the diagnostic product, contributing to product enhancement.
 - Achieved operational efficiency by designing and developing BI reports and dashboards, tracking over 200 KPIs and streamlining transactional data sources for various business units, facilitating operational and CXO dashboards for hundreds of hospitals and clinics.

- Genpact

Jan'12- Jun'13

Business Analyst

 - Acted as an analytics consultant for EMEA Pricing & Marketing Managers.
 - Developed Price Sensitivity Models for Ultrasound Devices to optimize profits.
 - Supported the Data Engineering team in creating an SQL database for lead storage.

- Independent Analytics Consultant

Sep'09 – Dec'11

 - Conducted market research for an Ed-Tech product launch, enhancing features and securing partnerships.
 - Classified news articles and improved product functionality based on user behavior.

- LatentView Analytics

Jun'08 – Aug'09

Analyst

 - Conducted secondary market research to estimate market sizes for home aesthetics, heart screens, and cardiology devices.
 - Developed a logistic regression credit card approval model for an Indian commercial bank, considering variables such as loan balances, income levels, and credit inquiries.

Education

Indian Institute of Technology Madras (IIT Madras, IITM) B.Tech, Civil Engineering
