Profile

As a Frontend Developer with over **seven years** of experience, I specialise in crafting web applications utilising JavaScript, Typescript and frameworks and libraries such as **Next.js**, and **React.js** respectively. Committed to excellence, I consistently seek avenues for personal and professional growth. My background encompasses diverse work environments, from multinational corporations to startups, where I thrive in collaboration within globally dispersed agile teams.

Experience

VITT INDIA

2022-PRESENT

Vitt India, a Fintech startup based out of Bengaluru, Karnataka, India. Vitt India provides solutions for facilitating offline payments and reconciliation.

POSITION: LEAD FRONTEND DEVELOPER

- Played a pivotal role as a founding member in a fintech startup, leading the development and implementation of both web and mobile applications.
- Leveraged expertise in **JavaScript**, **Typescript**, and frameworks such as **Next.js** and **React.js** to create innovative and user-friendly web interfaces and **Flutter** for mobile application.
- Collaborated closely with cross-functional teams to ensure seamless integration of frontend components with backend systems.
- Contributed to the design and architecture of the applications, ensuring scalability and performance.
- Actively participated in product planning, feature prioritisation, and roadmap development to meet business objectives.
- Implemented best practices for frontend development, resulting in efficient and maintainable codebase.

PUBLICIS SAPIENT

2016-2022

Publicis Sapient is a digital business transformation partner that helps organisations get to their future, digitally enabled state, both in the way they work and the way they serve their customers..

POSITION: SENIOR ASSOCIATE EXPERIENCE TECHNOLOGY

2019-2022

- **Led** one of the tracks in a multi-track project focused on delivering a **React** solution for Strong Customer Authentication to a major UK banking group.
- Contributed to a team developing a Reward Redemption system for a leading bank based in Thailand. My responsibilities included developing a **Flutter**-based mobile application and temporarily assuming the lead role during the lead's extended absence.

- Offered guidance and **mentorship** to recent graduates throughout their training period.

POSITION: ASSOCIATE EXPERIENCE TECHNOLOGY(L2)

2018-2019

- Worked on the redevelopment of a crucial web application for a prominent freight carrier in Australia, engaging in collaborative efforts with numerous agencies and vendors, and conducting on-site client demonstrations.
- Focused on crafting a **library of reusable and scalable React Components**, seamlessly integrated with Adobe Experience Manager.
- Consistently recognised through multiple awards for **client-focused delivery**.

POSITION: ASSOCIATE EXPERIENCE TECHNOLOGY (L1)

2016-2018

- Contributed as a key member of an internal team dedicated to crafting a framework for content-driven web applications, later adopted by multiple teams within the organisation.
- Developed a **Single Page Application(SPA)** using **React** for an in-house artifactory, facilitating an internal community for sharing reusable assets
