

VIGENSH MUTHUKRISHNAN

SENIOR SOFTWARE ENGINEER | CHENNAI, INDIA

✉ dev.vigneshmuthukrishnan@gmail.com | ☎ +91 9698934459

SUMMARY

Software Engineer with 8+ years of experience, including 4+ years in **Frontend Development (React.js)** and 2+ years in **Node JS** and 2+ years in PHP. Skilled in building scalable, responsive web applications using **React.js, TypeScript, JavaScript, and modern UI frameworks**. Strong in component architecture, **performance optimization**, reusable UI development, and **REST API** integration. Experienced in **Agile workflows, Git/Bitbucket**, and delivering clean, maintainable code aligned with business goals.

WORK EXPERIENCE

O Clock Software Private Limited, Chennai

Spe-2018 To Sep-2025

- **Frontend Development:** Built responsive and dynamic user interfaces using **React.js, JavaScript, and Tailwind CSS /Bootstrap**, ensuring smooth user experience across devices.
- **Component Architecture:** Developed reusable React components using functional components, **React Hooks, Context API, and custom hooks**, improving maintainability and scalability.
- **API Integration:** Integrated **RESTful APIs** with frontend applications using **Axios/Fetch**, optimized data handling using React Query and **state management tools**.
- **Performance Optimization:** Improved frontend performance with techniques such as **lazy loading**, code splitting, memorization, and bundle optimization, resulting in faster load times.
- **State Management:** Implemented global state using **Redux, Redux Toolkit, and Context API** to handle complex UI interactions.
- **Agile Collaboration:** Worked closely with backend teams, UI/UX designers, QA engineers, and project managers in **Agile/Scrum** environments to deliver high-quality user-focused features.

TechoSys, Chennai

Nov 2017 – Aug 2018

- Worked as a **PHP Developer**, contributing to backend development, feature enhancements, and maintaining web applications.
- Gained strong practical experience in building and optimizing PHP-based systems.

Gatt Systems, Chennai

Sep 2016 – Sep 2017

- Worked as a Trainee, learning core web development fundamentals and assisting in PHP-based tasks, debugging, and basic module development.

SKILL

- React.js, TypeScript, JavaScript, Tailwind CSS, Bootstrap
- Redux, Context API, Hooks, REST API Integration
- Node.js, Express.js, MySQL
- Git, Bitbucket, Agile Methodologies

PROJECT

TISCO – Car Service Booking Application

Tech Stack: **React.js, TypeScript, Tailwind CSS, Vite, Node.js, Express.js, PostgreSQL**

- Built customer and admin dashboards for booking, scheduling, and real-time updates.
- Implemented validations, reusable components, and API integrations.
- Used Vite for efficient builds and performance improvements.

Temple Management System

Tech Stack: **React.js, TypeScript, Tailwind CSS, Vite, Node.js, Express.js, PostgreSQL**

- Developed multi-role dashboards using React.js, TypeScript, and Tailwind CSS.
- Optimized UX and build performance using Vite.
- Collaborated with backend team implementing Node.js/Express.js APIs and ensuring secure PostgreSQL data handling.

Chat Bot – Knowledge Management (RAG-based)

Tech Stack: **React.js, Express.js, REST API, PostgreSQL**

- Developed a frontend interface for an intelligent chatbot using React.js, enabling real-time knowledge retrieval.
- Built chatbot UI using React.js enabling real-time interaction.
- Integrated RAG-based Lang Chain APIs for retrieval-driven responses

ERP System (Legacy Modernization)

Tech Stack: **PHP, HTML, CSS, JavaScript, jQuery, Bootstrap**

- Delivered responsive UI screens for Inventory, Sales, Purchase, Vendor, and Stock Transfer.
- Improved dynamic form handling and reporting using jQuery and Bootstrap.

EDUCATION

Bharathidasan University	2012 - 2014
Master of Computer Applications (MCA)	
Bharathidasan University	2010 – 2012
Bachelor of Science in Computer Science (B.Sc.)
