

# VIJAY MUTHUSAMY

## Senior Software Engineer

✉ vijaymuthusamydurai@gmail.com ☎ +91 6383640344

📍 11A, Sathinager 1st street, Adhambakkam, Chennai

### Profile

---

Over 4+ years of experience as a Node.js Developer, & ready to get hands dirty & has a penchant for working in a startup to build great new products. Always learning & constantly looking for inspiration. Extensive Knowledge in developing Web applications using Node.js, Redis, React, Redux-Saga, PHP, JavaScript, MySQL, MongoDB from scratch to end.

### Skills

---

Node.js • Express • Redis • React.js • MERN • Laravel • Php • Git • Mysql  
MongoDb • REST API • Json • Node.js frameworks • Redux • Saga • Postman  
Swagger • Mongoose

### Professional Experience

---

**Total Experience: 4+ Years**

**Senior Software Engineer**, CensaNext Pvt.Ltd June 2022 – present

**Program Analyst**, Unimity Solutions Pvt.Ltd August 2021 – June 2022

**Web Developer**, UltiwebTechnologies Pvt.Ltd May 2019 – August 2021

### Roles & Responsibilities

---

- Led the development of scalable backend solutions using Node.js, designing RESTful APIs and managing databases.
- Collaborated with cross-functional teams, including frontend developers and designers, to deliver high-quality software solutions.
- Conducted code reviews, provided mentorship to junior developers, and ensured adherence to best practices.
- Implemented security measures for authentication, authorization, and encryption to ensure data protection.

- Optimized application performance by implementing Redis caching for frequently accessed data.
- Utilized version control with Git for efficient collaboration and code management.
- Played a key role in troubleshooting and resolving critical technical issues during project implementation.

## Projects

---

### **Sunnybee Dashboard (React.Js,Node.Js,MySql)**

- Developed a web app handling staff and stock info across warehouses.
- Role-based access control implemented as super admin, admin, staff, customer.
- Built APIs using Node.js (Express) for seamless communication.

### **DMS Salesman App (React Native,Node.Js,MongoDb)**

- Created a mobile app for company salesmen managing customer and product details.
- Used Node.js (Express) to build APIs for data synchronization.
- Improved sales processes through real-time insights.

### **MTN Mobile App (Anroid,Node.Js,MySql)**

- Engineered an Android app for MTN with recharge and balance tracking features.
- Developed APIs using Node.js (Express) for secure data transfer.
- Enhanced user experience and convenience for millions of users.

### **Azypay Dashboard (Laravel,Php,MySql)**

- Led the development of a dashboard aiding merchants in managing profits and transactions.
- Implemented Laravel and PHP for efficient backend communication.
- Empowered merchants with transaction data visibility.

### **Ecopayouts (Laravel,Php,MySql)**

- Contributed to Ecopayouts, a money transfer product, with focus on efficiency and lower service tax.
- Improved financial transparency for users and admins.

### **Warehouse (Angular.Js,Node.Js,MongoDb)**

- Developed a web application tailored for the supermarket department to streamline store and stock management.
- Designed an intuitive interface for efficient maintenance of store and stock details, enhancing inventory control.

## Certificates

---

- Conflict management
- Leadership
- Developing others
- Ownership
- Teamwork and collaboration
- Client relationship management

## Education

---

**B.Tech(IT),** 2015 – 2019 | Dindigul, India  
PSNA college of engineering and technology  
Score: 66 %

**Higher Secondary,** SRV Hr.sec.school. 2012 – 2013 | Nammakal, India  
Score:73%

**SSLC,** SRV Hr.sec.school. Namakkal, INDIA  
Score: 75%
