WORK EXPERIENCE (Total: 6.4 years)

LODHA GROUP (Macrotech Developers), Mumbai

Product Manager (08/2022 - 12/2023)

(Lodha Group, Lodha Luxury & Palava City)

- **Product Positioning** : During my tenure with **Lodha Group (Macrotech Developers)**, I was working on projects directly dealing with Product Positioning to continually explore ways for the right market-fit and stay ahead of competitors / contemporaries. Although Lodha is an already established brand, it is still crucial to stay ahead of the curve and revisit product positioning strategies.
- **GTM (Go-to-market) strategy** : As far as GTM strategy is concerned, I ran both online and offline campaigns to promote Lodha's marketing campaigns. Despite my core job being management of the website, I even performed some duties when it came to on-ground canvassing of Lodha's latest product and service offerings. Some of them include the Women's Day Campaign 2023, Lodha NRI campaign, Project Unnati for women empowerment, etc
- **#SheOwnsIt**: Independently conceptualized and executed a campaign for Women's Day (inspired by my own journey). **"Celebrating Women who own their voice, their ambition and their homes, with pride."** <https://youtu.be/qhXxatLzXuU> which garnered the highest views (recorded so far for any Lodha video) **YouTube: 2.5 Mn Views.**
- Spearheaded **Categorisation of Lodha Properties across India (region-wise) as per SEO most searched keywords for real estate - Mumbai regions**: South Mumbai, South Central Mumbai, Western Suburbs, Eastern Suburbs, Harbour Line, Extended Eastern Region, Thane & Pune which resulted in 3x more website traffic & 2x more walk-ins (site visits) for the related Lodha Projects.
- Initiated **#LodhaTech** - A weekly mailer strategy for all the Lodha Brand Managers
 1. **Reclassification of All Projects Page** (Condensation of Filters for sleeker Drop Down list - *Renewed Possession Status: Ready-to-move in, Under Construction & Sold-Out*) <https://www.lodhagroup.in/all-projects> which made website navigation more intelligible for lay audience as well as enhanced experience for seasoned customers.
 2. Identified & set **Brand Guidelines for Campaign & Brand Websites** which reduced the rate of SLA breach for Digital Campaigns (Performance / Awareness) execution.
 3. **Elimination of Redundant Campaign Pages** which reduced the time consumption for website edits like pricing, typology, etc.
- **Soar for More Contest: Website Development, Data Storage & Bug Resolution** of annual Case Study Competition for Premier Indian Management Institute students (such as the IIMs, ISB, etc) https://www.linkedin.com/posts/lodha_8th-edition-of-soar-for-more-ugcPost-6994185617098067968-nA8W?utm_source=share&utm_medium=member_desktop
- Website development for **Lodha Genius Program** - The flagship event of Lodha focussing on supporting bright students of Grade 9-12 to achieve their highest potential and encourage them to contribute back to India <https://www.lodhagroup.in/press-release/lodha-and-ashoka-university-launch-lodha-genius-programme>
- Website development and brainstorming for **NRI campaign "Come home to the best. Come home to Lodha."** **Webpage Link:** <https://www.lodhagroup.in/nri/> **Video Reference:** <https://youtu.be/PFutnM3Ing4>
- Brainstorming for & Development of **Project Unnati** website: *An initiative to enable women to participate in the formal labour force & achieve their aspirations.* **Webpage link:** <https://www.projectunnati.in/get-involved.php>
- Website Development of **Lodha Sustainability Initiative.** **"Lodha ranks no. 1 as the most sustainable company in India."** **Webpage Link:** <https://www.lodhagroup.in/sustainability/>

YAARI (Indiabulls Venture), Mumbai

Online Shopping App; former B2B Reselling Platform

Associate Product Manager (02/2021 - 06/2022)

- **Product Roadmap** : While I was working with **Yaari** (a social commerce platform and Indiabulls Venture) in the capacity of an associate product manager, I was actively involved in defining the vision and direction of the product further contributing to the priorities and progress of the product over time. This was particularly crucial for Yaari because the product was not yet out in the market.
- **Product Lifecycle 0-1** : When I joined **Yaari** , I was one the initial 4 people in the team to have been hired. So right from brainstorming for the product, collecting primary data from subsequent other apps (Meesho, Shop101, Glowroad, etc), collaborating with the software engineers and UI/UX designers to get the prototype of the product ready, I played a vital role in really turning it around in the initial 6 months
- **Successful Ideation & Execution of "The Moment of Truth" Program**: Headed the overall R&D, training and tech integrations for Yaari account within KaptureCRM tool. Proactively highlighted social media escalation cases of unsatisfactory order experiences during sale peak periods. The sentiment analysis (customer satisfaction ratio: part of ORM - Online Reputation Management) resulted in a drop in negative comments (by 30%), a rise in neutral comments (by 50%) and a rise in positive comments (20%).
- **Knowledge Bank for Product Marketing**: Collaborated with external creative ad agencies and internal marketing teams to work on Blogs, Quora Answers, Offsite Articles and SEO content for additional two brands (skin care & athleisure wear within Yaari parent brand)
- **Employee Branding**: Prepared a standard Employee Onboarding / Joining Welcome Kit defining organizational goals, team & work culture which helped the HR team seamlessly onboard more than 50 employees during a critical period.
- **App Localisation**: Independently conducted research for App Translation / Transliteration in 7 regional languages besides Hindi (Marathi,

Bengali, Gujarati, Tamil, Telugu, Malayalam, Kannada). Projected Impact: 2X growth in App Downloads & 2X growth in DAUs (Daily Users).

SHOP101 - GLANCE InMobi, Mumbai

Product Marketing Manager (04/2019 – 05/2020)

- **App Communication & Merchandising:** Independently contributed in driving sales through a new initiative - "Theme Collections" to optimize main-feed merchandising which also resulted in 45% increase in retention of Daily active users and 40% incremental traffic
- **Social Media Management & Influencer Commerce:** Independently led a team of 7 to manage the company's social media portfolio to increase engagement and drive app signups. Onboarded 50 Instagram influencers to drive sales through their customized online stores, generating a monthly revenue of INR 1MM.
- **Innovation & App Feature Release:** Innovated, piloted and scaled a program called "Shop101 Seller Tools" (Celebrity Lookbooks)- an exclusive content marketing strategy that doubled Shop101 premium sellers' retention prior to the program's app integration
- **Community targeting & Acquisition:** Identified and drove ‘first order fulfillment’ activation for 100/1000 high intent tier-II, III sellers across India.

- **Strategic Partnerships:** Independently negotiated and closed deals for 15% discount on dine-in services, complimentary vouchers for salon spa services, coupon codes on flights, hotel bookings exclusively for Innov8 PAN-India co-workers across all Indian franchises with reputed hospitality, travel, wellness brands like Speciality Restaurants (Mainland China, Oh! Calcutta, Sigree Global Grill, Sweet Bengal), SquareMeal Foods (Mirchi and Mime), Soda Bottle Openerwala, VLCC, Cult.Fit, Sula Wines, Jean Claude Biguine Paris Salon, Ixigo amongst others
- **Startup Ecosystem:** Enabled role-specific hiring for small enterprises through internal collaborations - instrumental in helping a nascent stage startup called “Wopreneur” to become a team of 12 from 2 initially.

- 20+ front-page picture-stories on cuisine, fashion, pet care, youth-trends, social causes, environment, health, travel published to my credit

- **Impact:** 250+ visually-impaired students benefited in 9 years through sighted volunteers as writers and readers to facilitate their academics and examinations https://www.bombayballet.com/post/bbc-believes-in-inclusivity-at-workplace?fbclid=IwAR2a8G_CnH_Vo0pCBSCWymRdrI01y0lJPOseQRBtdw1pzWcQX-r7pAo2Lo
- **Persistent adoption:** Facilitated 10 episodes of an **“Inclusive Empathize” webinar series** streaming weekly for 90 minutes (during the lockdown) advocating Universal design and Accessibility. Networked with the panelists for the interactive sessions that included prolific personalities from the respective domains from India and abroad.
