Summary of Experience

- ✓ Having around **5.1 years** of professional experience in software development and business logic implementation using **Java** and **J2EE** based technologies.
- ✓ Hands on experience on technologies like **JDBC, Servlets, JSP, Restful Web services.**
- ✓ Hands on experience on frameworks like **Spring** and **Spring Boot.**
- ✓ Hands on experience **Spring** modules like **IOC,JDBC,ORM,MVC,REST,MicroServices.**
- ✓ Hands on experience on tools like **Log4j, SVN, Maven** and **Git.**
- ✓ Hands on experience on tools like **Junit, Jira.**
- ✓ Having good knowledge on **Agile** methodology.
- ✓ Hands on experience on UI technologies like **Angular ,JavaScript, JQuery** and **Ajax.**
- ✓ Hands on experience on UI technologies like **HTML, CSS, XML** and **JSON.**
- ✓ Worked on IDE such as **Eclipse** and **STS.**
- ✓ Understanding Business Requirements, flow of application and Capable of fixing the defects in the application.
- ✓ Ability to adapt to new environments.

Technical Expertise

Languages	JAVA, SQL
J2EE Technologies	Servlets, JSP, JDBC
Framework	Hibernate, Spring, Spring Boot
Web Services	Restful
Web Technologies	HTML, CSS , JavaScript, JQuery, Ajax, Json ,Angular
Web Server	Tomcat
IDE	Eclipse, STS
Build Tool	Maven
Tools	Log4j, SVN, Maven, JUNIT,JIRA,GIT
Database	Oracle 10g
Operating System	Windows

Experience Profile

Time Period	Company Name	Location
Nov 2022 to till date	Working as a Sr. Software Engineer at Vaco Binary Semantics LLP.	Hyderabad
Mar 2021 to Oct 2022	Working as a Associate-Projects at Cognizant Technology Solutions India Pvt. Ltd	Hyderabad
Aug 2020 to Mar 2021	Working as a Software Developer at Onward Technologies Limited.	Chennai
Jul 2018 to Aug 2020	Working as a Software Developer at STU BIZ Solutions Pvt. Ltd.	Hyderabad

Educational Qualification

- **MBA** from Jawaharlal Nehru Technological University in 2018.
- **B.Sc Computers** from Kakatiya University in 2015.

Projects Profile

Project# 1

Title : Blue Lake
Client : LexisNexis
Role : Team Member.
Team : 7
Duration : Nov 2022 to till date.

Environment:Spring MVC, Spring ORM, Spring IOC, RESTful Web Services, Micro Services, Spring Boot,LOG4J, MAVEN, SVN, SQL Developer, Junit, Mockito, ApaheTomcat, Oracle, HTML5,CSS3, JavaScript, JQuery, Ajax.

Description:

Blue Lake is a driver based forecasting application that captures business inputs to generate financial forecast at Project Id / Delivery Location level.

- Driver based forecasting model which generates financial output on the basis of business drivers entered by Delivery PoC (HC, utilization, pyramid etc).
- Real time generation of reports for quicker analysis and validation.
- Easy to View/Download Forecast Reports with various dimensions based on GEO, Account, Project, etc.
- In-built Rights Managements System to provide read, edit and approval access on the basis of projects and relevant hierarchy.

Responsibilities:

- ✓ Involved in Spring Controllers development.
- ✓ Writing the front end validation using JavaScript and jQuery.
- ✓ Writing the Ajax function calls as per requirement.
- ✓ Involved in coding for Web-based Application using Spring Framework.
- ✓ DAO layer development with Spring ORM.
- ✓ Writing JavaScript's for application requirement.
- ✓ Consuming RESTful web services.
- ✓ Involved in writing Unit Test cases.

- ✓ Worked on DB related activities.

Project# 2

Title : ECJ URJ (Unreported Judgements)

Client : Cognizant

Role : Team Member.

Team : 5

Duration : Apr 2021 to Oct 2022

Environment: Spring MVC, Spring ORM, Spring IOC, RESTful Web Services, Spring Boot, LOG4J, MAVEN, GIT, SQL Developer, MS SQL, Apache Tomcat, Oracle, HTML, CSS, JavaScript, JQuery, Ajax.

Description:

This system is designed to use ECJ application rather than RSuite application by providing multiple options and automate the URJ (Unreported Judgements) contents in the workflow.

Responsibilities:

- ✓ Involved in ECJ-URJ Dashboard clean-up.
- ✓ Involved in pub gateway failure support
- ✓ Worked on URJ access and Adhoc requests.
- ✓ Involved in Migration support.
- ✓ Worked on NZ-URJ Audit full reload process.
- ✓ Writing the front end validation using JavaScript and jQuery.
- ✓ Involved in coding for Web-based Application using Spring Framework.
- ✓ Writing JavaScript's for application requirement.
- ✓ Worked on DB related activities.

Project# 3

Title : Fiche Impact Homologation (FIH)

Client : Renault

Role : Software Developer

Team : 6

Duration : Sep 2020 to Feb 2021

Environment : Spring MVC, Spring ORM, Spring IOC, LOG4J, MAVEN, GIT, SQL Developer, JUnit, Apache Tomcat, Oracle, HTML5, CSS3, REST, Angular, JavaScript, TypeScript, JQuery, Ajax.

Description:

FIH is the part of the homologation domain. It is a workflow tool used for vehicle chassis and powertrain impact validation. By using of this application user can able to create an impact sheet which is created based on vehicle type and body. Impact sheets are tracked with respect to the completion status.

Responsibilities:

- ✓ Involved in Spring Controllers development.
- ✓ Calling AJAX function calls depends on requests.
- ✓ Worked on DB related activities.
- ✓ DAO layer development with Spring ORM.
- ✓ Involved in writing Unit Test cases.
- ✓ Implemented frontend validations with Angular.

Project# 4

Title : Laboratory Asset Relocation Tracking (LART)

Client : Amgen

Role : Team Member.

Team : 5

Duration : Aug 2018 to Jul 2020

Environment:Spring MVC, Spring ORM, Spring IOC, RESTful WebServices, SpringBoot, LOG4J, MAVEN, SVN, SQL Developer, Junit, Mockito, ApacheTomcat, Oracle, HTML5, CSS3, JavaScript, JQuery, Ajax.

Description:

LART will be used to automate the process of asset management in the chemical laboratory. It is to track all the asset moving requests information. By using this application we can submit electronic request for moving assets. Once we submit the request, so many numbers of approvals required to move assets. After completion of these all approvals, we can say our request is completed.

Responsibilities:

- ✓ Writing the front end validation using JavaScript
- ✓ Writing the Ajax function calls as per requirement.
- ✓ Involved in coding for Web-based Application using Spring Framework.
- ✓ DAO layer development with Spring ORM.
- ✓ Writing JavaScript's for application requirement.
- ✓ Consuming RESTful web services.
- ✓ Developed JSP's as per the requirement.

- ✓ Involved in writing Unit Test cases.

Personal Details

Name : Venkateshwarlu
Father Name : Karunam
Marital Status : Married
Nationality : Indian
Date of birth : 04-12-1994.
Languages known : English, Hindi and Telugu.

Declaration

I hereby declare that the above information is true and correct to the best of my knowledge.
