

VICKY RAY

Software Development Engineer
Bengaluru, India
rayvicky55@outlook.com | +91 7404212734

Professional Summary

Innovative and results-driven Software Engineer with 6+ years of experience in designing, developing, and optimizing high-performance systems in Amazon Retail and Amazon Web Services (AWS). Adept at collaborating across teams to lead critical projects and deliver solutions that enhance service reliability and customer satisfaction. Recognized for exceptional problem-solving skills, technical leadership, and the ability to drive projects from concept to completion.

Professional Experience

Amazon Web Services (AWS) | Software Development Engineer

Bengaluru, India | Jan 2021 - Present

- OpenSearch Service: Led the development and deployment of critical features, including the migration to Python3, rebranding efforts and AWS wide security initiatives. Acted as SPOC for my team and helped across multiple projects led by several sister teams.
- IPv6 Enablement: Successfully spearheaded a Proof of Concept (POC) and led the implementation of IPv6 support in OpenSearch, improving the service's scalability and future-proofing against internet protocol transitions.
- PrivateLink Integration: Managed a major architectural overhaul to onboard OpenSearch to AWS PrivateLink, improving the availability and reliability of the service. Contributed to the codebase of multiple sister teams for the same.
- Monitoring: Independently worked on improving existing and designing new internal monitors responsible for ensuring the availability of individual OpenSearch clusters.
- Mentorship: Guided an intern through the complete lifecycle of a micro-service migration project, leading to their pre-placement offer, showcasing strong leadership and mentorship abilities.
- Operational excellence: Improved the operational overhead of the service by creating reliable unit and integration tests, setting up of canary clusters for early problem detection, improving monitoring of service's health, setting-up pipelines for seamless and continuous deployments across classical and special regions ensuring the operational load on the team remains manageable.

Amazon | Software Development Engineer

Bengaluru, India | Jul 2018 – Jan 2021

- Amazon Shopping Portal: Enhanced platform availability by designing and implementing circuit breakers, timeouts, and fallback mechanisms, which ensured minimal service disruption and improved user experience.
- Black Friday & Prime Day Readiness: Led a team that ensured the platform's stability and readiness for peak traffic events, acting as the single point of contact (SPOC) for cross-team support during these critical sales periods.
- Platform Debugging & Optimization: Identified and fixed a critical bug in the platform that improved the platform's availability from 99.9% to 99.999%, earning multiple accolades from senior management. Led the migration of the platform's codebase to JDK 11, improving performance and reliability.
- Mentorship: Provided mentorship and technical guidance to several new team members. Acted as SPOC for other services onboarding to our platform.

Technical Skills

Programming Languages	C, C++, Java, Python
Database Management	Oracle, MySQL
Operating Systems	Windows, Linux, Unix, MacOS
Software	Eclipse, SQL Server, IntelliJ
Open Source	Git, Envoy
Java Technologies	Spring, JUnit, Maven, JDK-8, JDK-11
AWS Tools	OpenSearch, CodePipeline, EC2, ECR, S3, ECS, PrivateLink, CloudFormation, CloudWatch
Others	Design Patterns, Data Structures & Algorithms, Problem Solving

Achievements & Certifications

- Fast Track Promotion: Promoted within 1.5 years at Amazon vs avg 2 years.
- Kudos Awards: Received multiple accolades for outstanding contributions and performance at Amazon.
- Elite Certification: Completed the MOOC on Design and Analysis of Algorithms with elite certification from nptel.ac.in.
- Tech Competitions: Secured second prize in the American Express TechThat coding contest (2017) and won multiple awards in competitive coding at university tech fests.

Educational Background

Level	Stream	Institute	Passing Year GPA
Bachelor of Technology	Computer Engineering	National Institute of Technology, Kurukshetra	2018 8.9
Class XII	Science	Orient Day School, Kolkata	2014 96.25%
Class X	General	Orient Day School, Kolkata	2012 94.5%

Soft Skills

Attention to Detail
Effective Communication
Leadership and Motivation
Team Player and Critical Thinking

Hobbies & Interests

Music & Movies
Playing Cricket
Watching Documentaries & Reading
Current Affairs (Economy and Polity)
Quizzing & Puzzle Solving
