

VICKY KUMAR SINGH

FRONTEND DEVELOPER

PROFESSIONAL SUMMARY

Frontend Developer with 4+ years of professional experience in the software development industry. I have successfully designed, developed and implemented high-quality user interfaces for a range of web applications. I have strong knowledge of HTML, CSS, JavaScript, jQuery, ReactJS and Redux. My ability to work independently and within a team has enabled me to successfully collaborate on cross-functional projects. My biggest achievement was developing a state-of-the-art web application for an enterprise from scratch which is currently used by thousands of users across the globe.
